

### PARTNERSHIP UPDATE

#### Amgen's Mission to Serve Supports Veterans Who Proudly Served Their Nation

P3 has partnered with Amgen in support of their veteran hiring initiative. Amgen is a values-based organization with a powerful sense of shared purpose toward their mission—to serve patients. In relation to

the company's mission to serve, Amgen takes pride in hiring veterans that have proudly served their nation.

Amgen values the leadership skills, expertise, and dedication that veterans exemplify. To display their support, Amgen actively recruits veterans for a variety of leadership, management, and staff roles. The company has created a Veterans Employee Resource Group to further support their veteran employees. Additionally, Amgen's Veterans Employee Network provides access to a network of fellow military service professionals. The network extends internationally and supports veterans by promoting career growth opportunities and fostering leadership development.

Amgen is committed to offering rewarding career paths and empowering opportunities to help their employees reach their full potential. Learn more about Amgen's veteran hiring initiatives and explore their current opportunities at [Careers.Amgen.com](http://Careers.Amgen.com).

#### P3 Partner Offers a New Horizon of Training Opportunities for the Veteran Community

New Horizons Computer Learning Centers is one of P3's newest collaborators. New Horizons offers industry certification preparation training in several areas including live virtual trainings and onsite trainings held throughout the United States. Popular training options include Cisco, SQL Server, CompTIA, Access, Publisher, Visio, and Dreamweaver.

Some of New Horizon's learning centers are directly connected with their corporate headquarters, while others are individually owned franchises, but the services offered do not differ from one location to another. Since the current trend is for Army Reserve Soldiers to earn civilian certifications while serving, New Horizons is just one of the many programs from which certifications can be earned. Many locations across the United States are approved to accept GI Bill benefits. In addition, New Horizons offers free job readiness webinars such as: Resumes that Rock, Acing the Interview, Effective Job Search Strategy, and Leveraging LinkedIn.

To learn more about New Horizon's and review all of their training opportunities, visit [NewHorizons.com](http://NewHorizons.com).

### P3 Success Story!

The P3 Army Readiness Specialist (ARS) that covers Tennessee recently assisted an Army Reserve Sergeant with finding an amazing career opportunity in Egypt! At the time of initial outreach, the Soldier spoke about his dream of working overseas, and the P3 representative was committed to helping the Soldier achieve this goal.

The ARS assisted the Soldier with resume development, interview preparation, and resource assistance. She also researched international career opportunities and reached out to the companies on the Soldier's behalf. After diligently searching for opportunities, the ARS assisted the Soldier with

narrowing down his options. The Soldier was interested in working in the security industry, and a few security positions at Constellis piqued his interest.

After applying and interviewing for three different positions at Constellis, the Soldier accepted an offer to work for the company as an Armed Security Guard in Egypt. The Soldier officially started his new position earlier this month, and he is extremely grateful for the assistance he received from P3's ARS! The ARS also expressed positive sentiments and stated this was a unique and rewarding assistance opportunity.
