

LIFE-SAVING CAPABILITIES AT HOME AND ABROAD

The same unique capabilities that allow the Army Reserve to defend the homeland and combat enemies overseas can be activated to respond to disasters and humanitarian crises domestically and internationally.

AT HOME

Army Reserve Soldiers respond to disasters in order to save lives, prevent human suffering and mitigate great property damage through the Defense Support of Civil Authorities (DSCA) mobilization authorization.

ABROAD

Having unique medical, engineering, transportation and quartermaster capabilities, Army Reserve Soldiers are called to respond to disasters abroad. While assisting foreign populations in humanitarian missions, they also sharpen their skills.

DISASTER RESPONSE/HUMANITARIAN SERVICES CAPABILITIES
