PET & LIVESTOCK RESOURCES

The best way to protect your family from the effects of a disaster is to have a disaster plan. If you are a pet owner, that plan must include your pets. Being prepared can save their lives.

If you evacuate your home, **DO NOT LEAVE YOUR PETS BEHIND!** Pets most likely cannot survive on their own; and if by some remote chance they do, you may not be able to find them when you return.

HURRICANE PREPAREDNESS

HURRICANE MICHAEL, OCTOBER 2018

SOUTH CAROLINA RESOURCE GUIDE

5 THINGS TO KNOW ABOUT BEING PREPARED FOR A HURRICANE

1 Writing down your plan will ensure you don't make mistakes when faced with an emergency.

2 Document all of your valuables and possessions with a camera or video camera well before the storm.

3 Gather all vital documents, like passports and medical records, and put them somewhere that you can quickly access.

4 Make planning and preparedness a family affair to ensure everyone knows what to do.

5 It does NOT matter how many hurricanes are forecast for this year. It only takes one storm.

NTAS advisories – whether they be Alerts or Bulletins – encourage individuals to follow the guidance provided by state and local officials and to report suspicious activity. Where possible and applicable, NTAS advisories will include steps that individuals and communities can take to protect themselves from the threat as well as help detect or prevent an attack before it happens. Individuals should review the information contained in the Alert or Bulletin, and based upon the circumstances, take the recommended precautionary or preparedness measures for themselves and their families.
