CHECK IN / CHECK ON

Before... During... After

Make a Plan - Does everyone in your family know what to do, where to go, and who to contact in an emergency? Make a family communication plan so everyone can be prepared. (Ready.gov)

Safe and Well - After a disaster, you can let your family and friends know that you're safe. You can register yourself as "safe and well" or search to find loved ones.

FLORIDA RESOURCE GUIDE

To report someone missing: Due to issues with communication lines throughout the panhandle, there has been an increase in the number of calls for individuals missing, well-being checks, and concerns. The State has established a webpage for individuals to report these concerns. The State EOC will route these inquiries to the appropriate local agency for response.

How to Check on Your Home Before Returning

Many roads are blocked with debris and downed power lines, making it unsafe to drive anywhere.

There is one way that people can get a look at the damage on their street and even zoom in on their home.

HURRICANE MICHAEL, OCTOBER 2018

FLORIDA RESOURCE GUIDE

NOAA aircraft took aerial photos of the damage in storm-stricken areas.

An easy to use tool lets you zoom in on a street and the homes on a street.

The tool will also be a good option for those who have loved ones who live in the storm-stricken area and want to know if their loved one's home was damaged.

Here's how to look up an address using the tool:

1. Go to <https://storms.ngs.noaa.gov> and click on the link for "Hurricane Michael (2018)"
2. Zoom into the area you would like to see
3. Type in an address to zoom in more to see a street
4. If you can't find the specific location (It can be hard to recognize locations looking down on them), try finding the location first on Google maps, and then use Google maps as a reference when zooming in on locations in the NOAA tool.

PET & LIVESTOCK RESOURCES

The best way to protect your family from the effects of a disaster is to have a disaster plan. If you are a pet owner, that plan must include your pets. Being prepared can save their lives.

If you evacuate your home, **DO NOT LEAVE YOUR PETS BEHIND!** Pets most likely cannot survive on their own; and if by some remote chance they do, you may not be able to find them when you return.

HURRICANE PREPAREDNESS

5 THINGS TO KNOW ABOUT BEING PREPARED FOR A HURRICANE

1 Writing down your plan will ensure you don't make mistakes when faced with an emergency.

2 Document all of your valuables and possessions with a camera or video camera well before the storm.

3 Gather all vital documents, like passports and medical records, and put them somewhere that you can quickly access.

4 Make planning and preparedness a family affair to ensure everyone knows what to do.

5 It does NOT matter how many hurricanes are forecast for this year. It only takes one storm.

Individual Assistance Program Fact Sheet

When a local, state, territorial, or Indian Tribal Government determines that an incident exceeds their capabilities to respond, the mayor, governor or Indian Tribal Chief Executive must request a declaration from the President. The President may authorize Individual Assistance programs and services based upon whether the resulting damage and its effects are of such severity and magnitude as to be beyond the response capabilities of the state, affected local governments, and other potential recipients of supplementary Federal assistance.

The Individual Assistance mission ensure disaster survivors have timely access to a full range of authorized programs and services to maximize recovery, through partnered coordination of local, state, territorial, and Indian Tribal governments, as well as other Federal Agencies, nongovernmental organizations and the private sector. <https://www.fema.gov/media-library/assets/documents/133744>
