a. AC Soldiers who transfer directly into a Troop Program Unit (TPU) are authorized 36 months of stabilization from the date of assignment.

b. Soldiers (IMA or IRR) who deployed within 12 months prior to transferring into a TPU will be authorized a 24-month mobilization stabilization from the date of assignment.

d. This policy does not apply to TPU Soldiers reenlisting for another term in the USAR.

3. IRR Soldiers who transfer will include the following statement on their DA Form 4187, "A mobilization stabilization applies to this transfer; see attached Army Reserve Deployment Stabilization Statement." Attach the completed Mobilization Stabilization Statement to the DA Form 4187.

4. For AC Soldiers, the Reserve Component Career Counselor (RCCC) will add the Mobilization Stabilization Statement to the DA Form 3540 as an addendum.

5. Gaining units will annotate the Soldier's Personnel Maintenance Module of Regional Level Application Software (RLAS) with a Movement Non-Availability Reason (MVNAR) code of "SD" for the appropriate time period (18, 24, or 36 months). The source document to determine eligibility is the Mobilization Stabilization Statement.

6. The accessioning agency is responsible for uploading the Mobilization Stabilization Statement to the Soldier's Interactive Personnel Electronic Records Management System (iPerms) profile and confirming the upload was successful.

7. This policy is only a statement of the USAR's intent not to mobilize a Soldier during their stabilization period. 8. This policy does not guarantee a Soldier will remain in the same unit for the stabilization period.

9. Soldiers enlisting into a unit with a priority code 10 in the REQUEST System, viewed through the Automated Vacancy Entry (AVE) System, are ineligible for Mobilization Deferment. The accessioning agency is responsible for informing Soldiers of their ineligibility for a Mobilization Deferment.

10.
