

AMERICA'S ARMY RESERVE AT A GLANCE

CAPABLE · COMBAT-READY · LETHAL

2020

THERE IS NO COMPONENT OF MORE IMPORTANCE TO THE SECURITY ESTABLISHMENT THAN THE ORGANIZED RESERVE CORPS. THE NEW RESERVE CORPS CAN AND MUST BECOME THE WELL-TRAINED CITIZEN ARMY RESERVE REQUIRED TO SUPPLEMENT IMMEDIATELY, IN AN EMERGENCY, OUR SMALL REGULAR ARMY AND OUR NATIONAL GUARD.

— GENERAL DWIGHT D. EISENHOWER, ARMY CHIEF OF STAFF, JULY 1946

VISION

America's Army Reserve: the most capable, combat-ready and lethal Federal Reserve Force in the history of the nation.

MISSION

America's Army Reserve generates combat-ready units and Soldiers for the Army and Joint Warfighter that are trained, equipped and lethal to win our nation's wars.

"Army Reserve at a Glance" is a communication outreach tool produced by Army Reserve Communications (facts and figures as of May 2019).

The analysis model for the Army Reserve national and state economic impacts is the Regional Input-Output Modeling System (RIMS II) developed by the Bureau of Economic Analysis.

All Maps were built using Esri ArcGIS v10.3.1, spring 2019 by Office of the Chief Army Reserve, Installation Management Directorate. Facilities listed on maps and within data blocks represent locations of Army Reserve and Armed Forces Reserve Centers and units are assigned to other non-USAR locations. Data used to populate numbers of units came from ASIP retrieved 21 May 2019. Data used to populate the number of Soldiers assigned was an aggregation of Total Army COMPO 3 from ASIP.

Vignettes and photos provided by U.S. Army Reserve public affairs professionals. Army Reserve at a Glance incorporates photo composition, textures and other design elements to enhance the visual impact of the publication.

Contents in this product have been adapted and condensed from the Army Reserve Posture Statement/ oral testimony and products previously published by Army Reserve Communications.

ON BEHALF OF THE SOLDIERS AND FAMILIES OF AMERICA'S ARMY RESERVE, and Employers who share the best talent on Earth with this Team, it is my pleasure to present this latest edition of Army Reserve at a Glance – a report on the posture, strength and capabilities of the Army Reserve, as well as our economic impact across the Nation and around the globe. We appreciate your sustained commitment to this force of dedicated professionals as they serve the people of the United States and live the Army Values.

In a complex and unsettled global environment characterized by a resurgence of great power competition between nations, America's Army Reserve has pressed aggressively and relentlessly to increase its readiness and lethality – driving its ability to support large-scale combat operations to a new level.

Bringing essential enabling capabilities to the fight, we have adapted our strategy to anticipate and match the threats of tomorrow, shifting our focus from predictable rotational deployments and episodic readiness to an expeditionary posture capable of executing combat and combat support operations against peer adversaries with unprecedented speed and scale.

Driving this change has been tough work for the entire team. At its core, it has demanded that we grow and embrace a new culture, focused on warfighting readiness, ensuring the continued criticality of this Component as an essential partner in the Total Force. This has required a fundamental shift in both mindset and perspective, but through inspired leadership, boundless energy and the enthusiastic commitment of this team at all echelons, we have come a long way – not only in terms of increased readiness, but in the new spirit that has taken hold across this force. It is, to be sure, producing the most capable, combat-ready and lethal Army Reserve in the history of the Nation.

For well over a Century, America's Army Reserve has answered the Nation's call. Tomorrow will be no different. We are ready for the challenges of our time. Looking ahead, I will continue to rely on you – America's leaders and influencers – to encourage our fellow citizens in communities, on campuses and across congressional districts, to see themselves as our teammates in national security, sharing superb talent with us as we build and sustain the most powerful federal Reserve force in History.

As we continue to trek down the Road to Awesome be assured that America's Army Reserve will lead the way.

Lt. Gen. Charles D. Luckey
Chief of Army Reserve and Commanding General,
U.S. Army Reserve Command

**“WHEN CALLED TO SERVE,
WE WILL FIGHT.
AND WE WILL WIN.”**

— **Lt. Gen. Charles D. Luckey**, Chief of Army Reserve and Commanding General,
U.S. Army Reserve Command

AMERICA'S ARMY RESERVE

TODAY, THE GREATEST THREAT TO U.S. STRATEGIC INTERESTS AND GLOBAL STABILITY IS NOT TERRORISM; IT IS RESURGENT GREAT POWER COMPETITION. Rapid advances in disruptive technologies, and new concepts of warfare spanning all domains, inform our focus on increased combat-readiness, an expeditionary mindset and the capability to deter and defeat aggression across the globe.

Staff Sgt. Shane Seleznoff, a Stryker vehicle commander assigned to the 360th Chemical Company, 76th Operational Response Command, loads ammunition into a M2 .50 caliber machine-gun prior to a gunnery crew moving to a practice range as part of Operation Gauntlet. (Photo by Sgt. 1st Class Brent C. Powell)

America's Army Reserve is ready: training and maintaining the mission-critical forces and capabilities the Army needs to build expeditionary combat power and sustain a campaign-capable force.

The Army Reserve comprises nearly twenty percent of the Army's organized units, half its total maneuver support and sustainment capabilities, and a quarter of its mobilization base-expansion capacity. With more than 200,000 Soldiers and civilian employees, and 2,000 units spread across 20 Time Zones, America's Army Reserve is poised, positioned and ready to support the warfighter anywhere on earth.

In response to the changing global security environment, the Army Reserve has pushed into to a new state of operational readiness, improving the posture and capabilities of its forces to respond quickly to evolving threats from multiple sources. Under this construct, key early-deploying force capabilities are postured to aggregate and deploy rapidly with the requisite mobility, survivability, lethality and netted mission command architecture to fight and win on the battlefield.

SPECIALIZED CAPABILITIES

The Army Reserve is structured with specialized capabilities that are vital to defeating a near peer, high-end competitor, including some not present elsewhere in the Joint Force.

These include:

- **Sustainment capabilities** that are needed for major combat operations, but too expensive to keep on active duty when not required, such as theater-level transportation and sustainment.
- **Career skills** that are in high demand in the civilian sector and difficult to retain on active duty, such as medical, legal, engineering and cyber.

SUPPORTING CAPABILITIES FOR THE TOTAL FORCE

The Army Reserve provides the Army with a significant number of units in the following capabilities.

CAPABILITY	# OF UNITS
Medical	306
Transportation	273
Engineer	268
Quartermaster	149
Military Police	118

A Soldier from the 350th Engineer Company, of Bell, California, fires an M2 .50-caliber machine gun from an M113 Armored Personnel Carrier during a Combat Support Training Exercise. (Photo by Master Sgt. Michel Sauret)

UNIQUE UNIT TYPES IN THE ARMY RESERVE

In addition to a broad spectrum of low-density enabling units throughout its force, the following unit types exist only in the Army Reserve:

COMMANDS / CAPABILITIES

- Theater Engineer Commands
- Civil Affairs Commands
- Petroleum Operations
- Biological-Agent Defense
- Medical Minimal Care Detachments

EMERGING CAPABILITIES WITH CONNECTIONS TO THE PRIVATE SECTOR

- Cyber operations
- Army Space
- Basic research
- Advanced technology adaptation and integration
- Non-traditional accessions

READY WHEN THE NATION CALLS

THE CHANGING NATURE OF WARFARE AND RAPID ADVANCE OF TECHNOLOGY DEMANDS

increased readiness and capability to deter and, if necessary, defeat aggression. As the sole, dedicated federal reserve of the Army, Army Reserve Soldiers, comprising ready units-of-action from across the Nation and beyond, must be able to quickly mobilize, deploy, fight and win as part of the Total Force anywhere in the world.

PRIORITY ONE

Meeting the challenge of fielding a sufficiently robust, capable, ready and lethal array of forces from the ranks of a part-time force is no small task, particularly in today's evolving and increasingly dynamic global security environment. But that part-time force is also our strength, for it encompasses a new generation of Army Reserve Soldiers and leaders, highly

skilled and educated in 148 career fields that correspond to the capabilities our forces require to conduct, sustain and prevail in combat operations.

As we continue to build and sustain the readiness that is our first and most important priority, we are grateful for the steadfast support of the families who sustain our Soldiers and the employers who enable them to serve the Army and the Nation.

“... I want to put reality on a ‘one Army’ concept. It’s about the nation. It’s about why we fight wars and how we protect our country. At the end of the day, it is one singular Army that is mutually interdependent on each other for success.

— General Mark A. Milley, Chief of Staff of the United States Army, 2015–2019

READY FORCE X

Over the past three years, the Army Reserve has developed a new readiness construct – Ready Force X (or RFX) – to meet the readiness challenges presented by large-scale expeditionary operations. At its core, this “Fight Fast” capability optimizes processes and prioritizes resourcing in order to deliver capabilities at the speed of relevance for a major war.

Under the RFX construct, the Army Reserve has, through energetic and committed leadership, built and sustained increased levels of individual and collective readiness; prioritizing the equipping and modernization of specific formations and capabilities, and creating a level of focus and ethos – across the force – that is indefinitely sustainable and able to generate the capabilities required to match a variety of contingencies.

Because training is crucial to readiness, the Army Reserve conducted Individual and Collective training events with the rest of the Army, and Combat Support Training Exercises with Joint and multinational partners that reflect the new threat environments our forces are likely to face in the future.

From 2017 through 2019, hundreds of units and thousands of Soldiers and

crews cycled through multiple training events with Army, Joint and multinational partners at four premier training locations: Fort McCoy, Wisconsin; Fort Hunter Liggett, California; Fort Knox, Kentucky; and Joint Base McGuire-Dix-Lakehurst, New Jersey. In 2018, another 3,000 ground crews and 1,000 vehicle crews were trained and validated in crew-served weapons qualifications. Modernization initiatives included the accelerated funding and acquisition of key weapons systems, such as the Joint Light Tactical Vehicle, to ensure that Army Reserve Soldiers and units were familiarized with the

capabilities and employment of key systems years ahead of the initial fielding plan.

At the individual level, RFX also requires every Soldier to embrace the personal mandate of readiness. While many aspects of collective or unit readiness can be tuned-up quickly upon mobilization, key individual Soldier requirements, such as physical fitness, medical readiness, tactical discipline, professional education and fieldcraft proficiency, must be “baked in” to the entire force. We are, in the end, **all** in RFX.

TRAINED AND READY

The introduction of Operation Cold Steel, the largest live-fire exercise in Army Reserve history, was as much about changing the culture as it was about improving gunnery skills. As Soldiers and leaders have gained proficiency, the operation has evolved from centralized – U.S. Army Reserve Command-driven – to decentralized, with commanders driving the strategy and resources, and junior leaders and noncommissioned officers executing live fire events.

As a result of the extensive gunnery expertise and knowledge gained over the past several years, the Army Reserve is now supporting Combined Arms Support Command's efforts – with a plan to introduce and conduct the Army's pilot Senior Gunner Course in 2020.

WHERE WE'VE BEEN; WHERE WE ARE; WHERE WE'RE GOING

This focus on fighting fast against a peer or near-peer adversary, is a stark and challenging departure from the rotational readiness models that have been employed over the last 18 years of sustained operations, primarily in the CENTCOM Theater of Operations.

Right: Soldiers from the 391st Mobile Augmentation Company, Boise, Idaho, inspect a Mine Clearing Line Charge to ensure all safety measures are in place. (Photo by Sgt. 1st Class Jason Proseus)

ARMY RESERVE INNOVATION COMMAND

To counter the threat rapid technological advancements pose to U.S. land power dominance and technological superiority, America's Army Reserve has stood up a new command to improve the readiness and lethality of the future force.

Combining the resident skill, capability and experience of Citizen Soldiers who are already experts in the fields of science, cyber, artificial intelligence and more, with new private sector leaders and innovators willing to pursue and expand their careers in the Army Reserve, the new Army Reserve Innovation Command will drive operational innovation, concepts and capabilities to anticipate, identify and resolve technology and innovation challenges to improve the readiness and lethality of the future force.

As Direct Support to Army Futures Command, Army Reserve Innovation Command will also integrate its technical knowledge within the larger Department of Defense community to help solve military-unique challenges; serve as a long-term screening force for the Army and the Department of Defense; and facilitate bilateral dialogue that matches areas of interest with the latest technology trends.

While the Army Reserve Innovation Command is headquartered in Houston, Texas, it will establish locations throughout the United

A Soldier participates in Simulation Training with an Unstabilized Gunnery Trainer-Crew system. (Photo by Spc. Brianna Saville)

States, with a significant presence in technology hubs like Boston, Silicon Valley, New York City, Austin, Seattle and other locations.

CYBERSECURITY AND THE ARMY RESERVE

Today, more than any other time in history, the United States relies on data and information systems at nearly every level of national power. U.S. military information networks are no longer simply platforms for communications and mission command, but enable every aspect of warfighting functions – from logistics and maintenance to the integration of virtually every facet of battlefield operations. This reality creates a new war fighting domain that is subject to contest and massive disruption.

Over the last several years, the threat to these

systems from nation-states, non-state actors, terrorists, and even criminal networks, has become increasingly more pervasive and sophisticated, posing a risk to military operations, forces and communities. As a result, the nature of our cyber posture also shifted, from passive defense with a reliance on firewalls, to active defense with an emphasis on highly skilled and critically thinking cyber professionals.

In the Army Reserve, cybersecurity evolved from a few data processing units, to what is today a force of cyber warrior citizens with years of industry-specific knowledge, expertise and skill in advanced technology fields.

As Soldiers, Army Reserve signal and cyber units serve in direct support of Third Army, Army Central Command in Southwest Asia, and homeland defense missions. In their civilian capacities, Army Reserve cyber warriors work in more than 40 corporate, financial and academic institutions including Uber, Google, IBM, MIT, Carnegie Mellon University and the Naval Post Graduate School. They also support myriad missions to include cyber protection of critical infrastructure networks, and work in more than 30 government agencies including the Department of Homeland Security, the National Security Agency, the Federal Bureau of Investigation and the Defense Intelligence Agency.

For other than a few seasoned Soldiers who trained to fight an existential competitor — The Threat — in a Cold War that led to the fall of the Berlin Wall, where we are going is not where we have been.

Not only does RFX drive all aspects of training to build increasingly high levels of individual and collective readiness, it enables the Army Reserve to prioritize the equipping and modernization of specific formations or capabilities with a sustained level of focus because the lead capability sets and formations inside the RFX architecture do not “rotate” arbitrarily from one year to the next.

This key attribute – the ability to plan and sustain a coherent training, equipping and resourcing strategy, for the bulk of America’s Army Reserve,

across a number of years — will deliver ever greater capability and lethality going forward.

The Army Reserve has also adapted how it trains – challenging Soldiers and units with relevant scenarios that emulate the full-spectrum, all-domain aspects of the future fight.

Through strenuous training exercises and battle-drills designed to stress the force in fast-paced, lethal and austere environments, the Army Reserve has focused on combat-readiness and fieldcraft to an unprecedented level. Moreover, we have placed an unprecedented priority on instilling a sense of ownership, and insistence on Standards and Discipline, at all echelons of the team. This is critical work, requiring engaged leadership at every level, and relentless persistence across all facets of our operations.

Building on three years of expanded and year-round Cold Steel gunnery operations, expanded Combat Support Training Exercises (CSTXs), routine and embedded rotations at the Army’s Combat Training Centers, and ever closer collaboration with active Army and National Guard, we continue to explore expanded options to build and sustain readiness for tomorrow. Working closely with the other components of the Army and, in many cases, with close partners and allies from around the world, America’s Army Reserve continues to build and expand upon opportunities to train the way we will fight; together.

We need to work together to alleviate the tension between being ready enough to be relevant, but not so ready that our Soldiers can’t maintain good, meaningful civilian jobs, and healthy, sustaining family lives.

— Lt. Gen. Charles D. Luckey,
Chief of Army Reserve and Commanding General,
U.S. Army Reserve Command

Col. Stephen R. Smith, center, 79th Theater Sustainment Command chief of staff, acts as commander of troops for the 79th TSC’s change of command ceremony. (Photo by Sgt. 1st Class Alexandra Hays)

SOLDIERS, FAMILIES AND EMPLOYERS

Our challenge remains straightforward and dynamic, but also tough: this team needs to be ready enough to be relevant, but not so ready that our Soldiers cannot maintain good, meaningful civilian jobs and healthy, sustaining family lives. This challenge is exacerbated by the simple fact that we must recruit and retain our ranks where Soldiers live and work, and anticipate emerging demographics by moving force structure to not only where talent resides today, but where it will be tomorrow. This process demands agility, synchronization and integrated planning. It also relies, without exception, upon the enduring support of thousands of employers across America as well as our Soldiers’ Families.

Supporting Soldiers, veterans and military families across business industry and academia, the Army Reserve’s Private/Public Partnership (P3) initiative is continuing to build a nationwide network of not-for-profit, for-profit and academic organizations. P3 assists Army Reserve Soldiers in gaining access to unique training opportunities that allow them to apply their expertise and leadership skills to real-world projects that correlate with their military experience. The goal of P3 is to establish mutually-beneficial relationships and opportunities that enhance Soldier readiness and bring additional capabilities to America’s Army Reserve, and the Nation.

This part-time force would not be possible without the support of civilian employers around the globe. They are our essential partners in national security — sharing the best talent in the world — as they continue the commitment and sacrifice which allows Soldiers to serve the Nation while maintaining rewarding civilian employment. America owes these employers a deep appreciation for sharing their workplace talent with America’s Army Reserve.

THE 2ND SPACE BATTALION, 1ST SPACE BRIGADE, IS BASED IN COLORADO SPRINGS. Its mission is to plan, integrate, synchronize and execute space situational awareness, space and technical operations support, and assigned contingency activities in support of the Army, joint and combined forces and civil authorities.

Soldiers of the United States Army Reserve's only space battalion provide commands with unique capabilities including offensive and defensive space control, missile warning, satellite communications, and remote sensing.

The 11th Expeditionary Combat Aviation Brigade, based at Fort Carson, provides air assault capability to maneuver forces; positions personnel, provides supplies

and equipment; evacuates casualties and conducts personnel recovery; conducts maintenance procedures and provides air traffic services. The 11th ECAB is prepared to conduct operations in a Defense Support of Civil Authorities environment; provide accurate and timely information collection; and destroy, defeat, disrupt, or delay enemy forces.

CONNECTICUT

CONNECTICUT'S UNIQUE LOCATION AS THE GEOGRAPHIC LINK between New England and the mid-Atlantic states allows its Army Reserve units to provide support to civil authorities in case of natural disasters ranging from a devastating nor'easter in Massachusetts to a hurricane-produced storm surge in Delaware.

Civil affairs units in Danbury serve as a liaison between the Army and civilian authorities, identifying critical requirements needed by local populations during combat or crisis situations such as natural and man-made disasters. Nearly 90 percent of the Army's civil affairs assets reside in the Army Reserve.

In West Hartford, medical professionals in local units bring critical civilian medical expertise to the battlefield, and also conducts Innovative Readiness Training missions in underserved communities across the United States. More than 50 percent of all medical assets in the Army reside in the Army Reserve.

HAWAII

HONOLULU'S 9TH MISSION SUPPORT COMMAND IS ALIGNED OPERATIONALLY WITH U.S. ARMY PACIFIC COMMAND to provide forces for overseas operations. The "Pride of the Pacific" includes Soldiers from Hawaii, Alaska, American Samoa, Japan, Korea, Guam and Saipan.

With the islands of Hawaii geographically forward-postured and strategically dispersed, the 9th MSC conducts more than 40 multicomponent and multinational exercises per year.

The 311th Signal Command (Theater), headquartered at Fort Shafter, manages, secures and defends Army networks throughout the Pacific Theater.

More than 50 Soldiers responded to the Pacific's first Immediate Response Authority mobilization when Super Typhoon Yutu devastated Saipan and the Commonwealth of the Northern Mariana Islands.

One of the Army's most famed units – the 100th Battalion/442nd Infantry Regiment – resides in the Army Reserve. The unit has the distinction of having earned the most Medals of Honor in U.S. Army history, following the heroism of more than 1,400 Japanese-Americans who enlisted following the attacks on Pearl Harbor. The Army Reserve's sole infantry battalion now consists of five companies dispersed across the Pacific.

The 372nd Engineer Brigade provides command and control of four engineer battalions throughout the Midwest.

MINNESOTA

THE 372ND ENGINEER BRIGADE, based at Fort Snelling, provides command and control for four engineer battalions throughout the Midwest. The 372nd traces its roots back to World War II, where it served as the 372nd Engineer Group.

The brigade is postured to support both domestic events and contingency operations by providing capable and combat-ready engineer assets, as well as participating in humanitarian operations and joint training exercises around the world.

NEW YORK

THE ARMY RESERVE HAS A STRONG PRESENCE THROUGHOUT THE EMPIRE STATE.

From its headquarters at Fort Wadsworth, Staten Island, the 353rd Civil Affairs Command prepares to serve as a liaison between the Army and civilian authorities and populations in deployed locales. These Soldiers combine regional expertise, political awareness and cross-cultural communication skills to conduct operations.

At the other end of the spectrum, Rochester's 198th Army Band, and the 78th Army Band's detachment at Fort Totten, Queens, build esprit de corps and public support through military and community engagements. These highly skilled Soldiers add another layer of skill and professionalism to the Army Reserve.

The Army Reserve also collaborates with military installations throughout the state. Recently, Canandaigua's 680th Engineer Company and Oswego's 444th Mobile Augmentation Company participated in the Ready Force Breach exercise at Fort Drum to validate their proficiency and readiness.

Spc. Craig Gaghich with the 680th Engineer Company, 497th Engineering Battalion, approaches an M113 Armored Personnel Carrier to begin convoy operations during Exercise Ready Force Breach at Fort Drum, New York. (U.S. Army photo by Sgt. Andrew Carroll)

OKLAHOMA

THE ARMY RESERVE PROVIDES MORE THAN HALF OF THE ARMY'S DRILL SERGEANTS, making their contribution critical to a future force capable of meeting rapidly evolving global challenges.

Fort Sill's 95th Training Division (Initial Entry Training) is one of two Army Reserve divisions fulfilling that critical role. They serve at all four Army Basic Combat Training sites, with the primary task of leading recruits through "Echo Mission," a capstone field exercise incorporating all elements of recruit training in the context of a stressful military operations scenario that includes simulated IED attacks, ambushes and casualties.

Oklahoma City's 401st Engineer Company (Multi-Role Bridge Company) is an example of how the Army Reserve provides combat and humanitarian mission commanders with specialized personnel capable of crossing rivers, lakes and other obstacles with both floating and dry-support bridges. Combat engineers of the 401st maintain readiness by training with active-duty bridging engineers during exercises like River Assault.

Pennsylvania offers several key training sites. The 80th Training Command has training centers at Fort Indiantown Gap and Tobyhanna, instructing courses in ordnance and signal career fields.

PENNSYLVANIA

THE ARMY RESERVE HAS A STRONG PRESENCE THROUGHOUT THE KEYSTONE STATE, highlighted by Coraopolis' 316th Sustainment Command (Expeditionary), a one-star command that deployed to Iraq in support of Operation Iraqi Freedom and to Kuwait in support of Operation Enduring Freedom.

Based at Letterkenny Army Depot in Chambersburg, Army Reserve Soldiers with the Defense Information Systems Agency support Joint Force Headquarters and the White House Communications Agency with defensive-cyber and mission command capabilities.

All Soldiers must train regularly to maintain their unique skill sets, and Pennsylvania offers several key training sites. The 80th Training Command has training centers at Fort Indiantown Gap and Tobyhanna, conducting courses in ordnance and signal career fields.

The Keystone Local Training Area in northwestern Pennsylvania reopened as a key training site for Soldiers throughout the commonwealth. Johnstown's 458th Engineer Battalion, the first unit to fire on Keystone's reopened ranges, also participated in a troop-construction project to refurbish the site, which had been closed since 2012.

RHODE ISLAND

THE 443RD CIVIL AFFAIRS BATTALION, headquartered at Naval Station Newport, trains for the unique overseas mission of serving as liaison between the Army and civilian authorities and populations.

Rhode Island is also home to several Army Reserve medical units — the 327th Medical Logistics Company in Newport, the 912th Forward Surgical Battalion Team in Cranston, and the 338th Minimal Care Detachment in Narragansett. Assigned Soldiers, including doctors and nurses, provide myriad medical services, many of which leverage skills honed in the civilian sector.

Also in Cranston, the 301st Terminal Supervision Team, 532nd Port Management Team and 888th Movement Control Team, make the most of being located in a coastal area by moving supplies, troops and equipment around the world to support the Army Reserve's mission.

SOUTH CAROLINA

SOUTH CAROLINA IS VITAL TO TRAINING SOLDIERS

through the U.S. Army Drill Sergeant Academy at Fort Jackson.

Army Reserve drill sergeants provide a significant presence in developing today's forces through both Basic Training and Task Force Marshall. Task Force Marshall provides basic skills refresher training to mobilized Inactive Ready Reserve Soldiers and Navy Individual Augmentees deploying in support of contingency operations.

The 81st Readiness Division, based at Fort Jackson, provides the Army with ready Soldiers, equipment and facilities through base operations, administrative and customer support, and vehicle maintenance for more than 50,000 Soldiers throughout nine Southeastern states, Puerto Rico and the U.S. Virgin Islands. The 81st covers 254 facilities and 45 maintenance shops which provide essential capabilities for both warfighting and civil homeland emergency response through Defense Support to Civil Authorities.

FUNCTIONAL + GEOGRAPHIC COMMANDS

U.S. ARMY RESERVE COMMANDS NATIONWIDE

THIS MAP DEPICTS THE LOCATION OF MAJOR COMMANDS within their geographic region, with Readiness Divisions providing centralized delivery of Soldier and family support programs. Readiness Divisions also provide senior Army Reserve representation, available for disaster response efforts in the region.

Rise Above!

ARMY RESERVE AVIATION COMMAND

THE ARMY RESERVE AVIATION COMMAND, Fort Knox, Kentucky, provides command and control for all Army Reserve aviation assets. The ARAC provides air traffic services, airfield management, aeromedical evacuation, combat aviation brigade reinforcement, theater aviation support and coordination of aviation staging and onward movement in order to support Army or joint operations.

With more than **3,500 Soldiers and 192 aircraft in 12 states**, the Army Reserve Aviation Command is one-of-a-kind, providing command and control for all Army Reserve aviation, including air assault, air movement, aeromedical evacuation, and inter- and intra-theater transportation. Additionally, the command supports all FEMA regions within the United States to assist in emergency response.

The (formerly designated) 11th Aviation Command was constituted in 1963 to move one-third of a division's infantry battalions and supporting units in a single helicopter lift.

ARMY RESERVE INNOVATION COMMAND

AS THE ARMY RESERVE ADAPTS AND TRANSFORMS, it is seizing the initiative to develop and nurture the U.S. Army asymmetric advantages and prevent operational surprise.

As a screening force, the ARIC is uniquely able to assist in identifying the latest technology trends, solving military challenges and incorporating commercial innovation into institutional processes.

The Army Reserve Innovation Command is leveraging innovation, concepts and capabilities to enhance the readiness of the future force, accelerate modernization within the Army Reserve, and capitalize on resident civilian knowledge, skills and experience.

With a direct supporting relationship to the Army Futures Command, the Army Reserve Innovation Command facilitates a deeper connection between private sector and the larger defense community. As a screening force, the ARIC is uniquely able to assist in identifying the latest technology trends, solving military challenges and incorporating commercial innovation into institutional processes.

Headquartered in Houston, with subordinate groups in: Austin, Texas; Boston; and Mountain View, California – as well as outposts in technology hubs around the country – the Army Reserve Innovation Command is focused on leveraging specialized skills acquired in the private sector to solve Army Problems.

ARMY RESERVE MEDICAL COMMAND (ARMEDCOM)

ARMY RESERVE MEDICAL COMMAND provides medical, dental, blood donor and veterinary services, bringing critical medical expertise to Soldier Readiness Processing and Troop Medical Clinic operations at Mobilization Force Generation Installations located throughout the United States.

In 2018, ARMEDCOM mobilized or deployed more than 800 Soldiers in support of active-duty military treatment facilities and Soldier Readiness Processing centers, both at home and abroad. ARMEDCOM also supported four of DoD's Innovative Readiness Training missions in six separate locations, providing more than 7,000 different types of medical services – translating into much needed help for more than 4,000 people in communities across America, and real-world training for future 'Fight Fast' missions.

In concert with these missions, ARMEDCOM also provided more than 2,700 Soldiers to total force training and mission support, engaged in 61 major exercises across 30 locations – designing, executing and assessing individual and collective training while delivering quality health care to exercise participants.

MILITARY INTELLIGENCE READINESS COMMAND

ARMY RESERVE INTELLIGENCE plays an essential role in U.S. domestic and global security operations. The MIRC provides trained, equipped, and ready Soldiers and units to meet the operational intelligence requirements of Combatant Commands and the national intelligence community.

The **Military Intelligence Readiness Command** is part of the adaptive and innovative intelligence enterprise, responsible for collecting and fusing intelligence in support of operational missions. It provides the joint force and intelligence community with trained and ready Soldiers,

mission-tailored teams, deployable units, and state-of-the-art intelligence production and training facilities. The MIRC's mission set includes conducting signal intelligence, strategic intelligence, geospatial intelligence, counterintelligence, human intelligence, technological

intelligence and processing, exploitation and dissemination operations. Formed in 2005, the MIRC has deployed more than 6,500 Soldiers, providing operational intelligence support to every national intelligence agency, Combatant Command and Army Service Component Command in support of worldwide contingency operations.

U.S. ARMY CIVIL AFFAIRS & PSYCHOLOGICAL OPERATIONS COMMAND (AIRBORNE)

THE U.S. ARMY CIVIL AFFAIRS & PSYCHOLOGICAL OPERATIONS COMMAND (AIRBORNE)

is a two-star headquarters that provides Army and Joint Forces commanders with 95 percent of the conventional DoD civil affairs forces and all its conventional psychological operations forces.

Right: Soldiers participate in a downed gunner training exercise while conducting crew-served weapons training hosted by the U.S. Army Civil Affairs & Psychological Operations Command. (Photo by Sgt. Tracy McKithern)

USACAPOC (A) Soldiers are currently integrated in global operations across the world, providing operational and tactical Civil Affairs, Psychological Operations and Information Operations capabilities to enhance the lethality of the conventional force across the full range of military operations.

The command also provides airborne oversight for USARC and is the only strategic CA structure in DoD. Civil Affairs, Psychological Operations and Information Operations Soldiers combine regional and trans-regional expertise, political-military awareness and cross-cultural communication skills to enhance lethality for maneuver commanders across the full spectrum of military operations.

Victory with Justice

U.S. ARMY RESERVE LEGAL COMMAND

THE ARMY RESERVE PROVIDES APPROXIMATELY 40 PERCENT OF THE ARMY'S ATTORNEYS and hosts the only large-scale collective training event for military law professionals in the Department of Defense.

The Army Reserve Legal Command has mission command of 1,800 personnel stationed in 104 cities in 43 states in the continental U.S. and two OCONUS locations. It is home to 60 percent of all Army Reserve legal assets, which includes judge advocates, legal administrators, paralegal noncommissioned officers, junior enlisted personnel and civilian para-professionals. Twenty-eight legal operations detachments rely on the legal command headquarters for training, equipping, managing, supporting and mobilizing legal assets, with professional legal forces ready to provide multifunctional legal operational support.

In addition to serving the legal needs of Army Reserve Soldiers, families and retirees on a daily basis, the USARLC is missioned to train and mobilize with the active Army – providing forward deployed and backfill support to active-duty units and installation legal offices.

Hooah! Garita Warriors!

1ST MISSION SUPPORT COMMAND

THE 1ST MISSION SUPPORT COMMAND PROVIDES MISSION COMMAND to Army Reserve units in Puerto Rico and the U.S. Virgin Islands, ensuring units are ready to deploy and execute their wartime missions. Most of the Soldiers of the 1st MSC possess bilingual skills, which brings value to the Army and Joint Force.

Army Reserve units have served in Puerto Rico since 1922 when the 373rd Infantry was moved to the Organized Reserve and headquartered in San Juan. Over the past generation, the command has overseen a multitude of successful deployments in support of various DoD operations, including Joint Guard, Noble Eagle, Operation Iraqi Freedom and Operation Enduring Freedom.

Opposite page: Spc. Antonio Williams, a dental specialist assigned to 810th Dental Company, 3rd Medical Command (Deployment Support), provides security for the Combat Support Training Exercise at Fort McCoy, Wisconsin. (Photo by Sgt. Chad Guthrie)

While in garrison, the “Desert Medics”

train Soldiers and units for mobilization to deliver cutting-edge combat health care to U.S. service members, multicoalition forces and other personnel in accordance with the Medical Rules of Engagement.

Globally engaged, the 3rd MCDS mobilizes, deploys and redeploys forces to support our nation’s defense anywhere in the world, establishing the 3rd MCDS as the single medical enabler supporting the United States Army Central Command, most notably in the Middle East.

The 3rd MCDS also specializes in mission command and control of theater medical units that deliver Army Health System support for brigade combat teams, divisions, corps, joint and multinational forces.

An Ocean Closer

7TH MISSION SUPPORT COMMAND

THE 7TH MISSION SUPPORT COMMAND HAS BEEN A FORWARD PRESENCE FOR THE ARMY RESERVE IN EUROPE SINCE 1956. The 7th MSC is a key provider of trained and ready forces in support of theater security cooperation missions and global force contingencies.

Right: Col. John E. Dethlefs (left), commander of 209th Digital Liaison Detachment, interacts with German army Capt. Christian Hartl of the S1 staff, 23rd Mountain Infantry, during the Joint Warfighting Assessment 18 at Grafenwoehr Training Area. (Photo by Sgt. Daniel Friedberg)

Expeditionary in nature, the command can rapidly deploy a mission command headquarters capability, providing regionalized support to forces in support of USEUCOM, the Army Service Component Command, and/or attached Army Reserve units in theater.

The 7th MSC is a critical component of the Total Force in Europe, relied upon for combat-ready capabilities. These capabilities include civil affairs, deployable base cluster management and base camp design, movement control, coalition systems integration/ liaison support, officer professional military education instruction, medical support, and CBRN event assessment. The command enables integration at the service, joint and multinational levels in Europe and is capable of interfacing with NATO allies and other partners in the event of a contingency operation, as well as a natural or man-made disaster.

7TH MISSION SUPPORT COMMAND KAISERSLAUTERN, GERMANY

SPECIALIZED CAPABILITIES

- Army Reserve units in direct support of U.S. Army Europe and EUCOM
- Facilitate interoperability and integration of Army units with joint and multinational forces through our Digital Liaison Detachments
- Provide engineer assessments, planning, and design and construction management services to Army units through our Forward Engineer Support Team - Advance
- Enable cross border freedom of movement with hybrid movement control/civil affairs teams placed at key terrain in coordination with national movement centers

Pride of the Pacific

9TH MISSION SUPPORT COMMAND

THE 9TH MISSION SUPPORT COMMAND is strategically forward-postured and geographically dispersed, providing U.S. Army Pacific with capable forces at key launch points. Soldiers of the 9th Mission Support Command speak 29 languages in a command that crosses seven time zones, two U.S. states, two U.S. Territories, a Commonwealth and two foreign countries.

The 9th MSC is ready to rapidly mobilize and engage, as recently demonstrated through decisive execution of the first Immediate Response Authority mobilization in the Pacific, answering the call for help when Super Typhoon Yutu devastated Saipan and the Commonwealth of the Northern Mariana Island in 2018, sending 350 Soldiers to aid in the recovery and relief effort, seamlessly integrating into the joint Department of Defense and FEMA-led disaster response.

The 9th MSC also plays a vital role in more than 40 exercises under the U.S. Army Pacific Theater Security Cooperation Program, standing ready to provide humanitarian assistance, disaster relief and Defense Support of Civil Authorities.

Left: Soldiers assigned to the 100th Battalion, 442nd Infantry Regiment, 9th Mission Support Command fire the first rounds in the modular small arms range in American Samoa, Apr. 27, 2019. The MSAR is a state of the art, self-contained indoor range with the highest safety ratings. This range allows Soldiers in American Samoa to qualify on their individual weapon system and meet U.S. Army Standards without leaving home soil. (Photo by Sgt. Stephanie Ramirez)

Blood and Fire

63RD READINESS DIVISION

MOUNTAIN VIEW'S 63RD READINESS DIVISION, "BLOOD AND FIRE" SOLDIERS, carry on the legacy of the 63rd Infantry Division by providing an array of critical support functions for Soldiers within a seven-state region.

The Soldiers and civilians of the 63rd Readiness Division support readiness through military construction projects, base operations management, equipment maintenance, refurbishment and logistics. The 63rd RD also provides critical human resources and administrative support to more than 43,000 Soldiers and their families, including Yellow Ribbon Reintegration Program, Retirement Services, Casualty Assistance and Strong Bonds workshops.

The Mission Command Support Group within the 63rd Readiness Division employs its public affairs

units to inform our public stakeholders regarding Army activities in the U.S. and around the world, while the Army bands engage year-round within the communities and throughout the country.

76TH OPERATIONAL RESPONSE COMMAND

THE 76TH OPERATIONAL RESPONSE COMMAND IS THE ARMY RESERVE'S CENTER FOR DEFENSE SUPPORT OF CIVIL AUTHORITIES, providing support to state and local officials, first responders and other federal agencies during emergencies or natural disasters.

The 76th Operational Response Command (ORC) is home to two Chemical, Biological, Radiological and Nuclear (CBRN) brigades, a space brigade, a Regional Support Group, the Army Reserve's Consequence Management Unit, 11 Army Reserve Elements, 10 Regional Emergency Preparedness Liaison Officer (EPLO) Teams, and 53 State EPLO Teams.

In the role of Task Force 76, they are the headquarters for the Command and Control CBRN Response Element-Alpha, a rapid response capability for CBRN incidents and natural disasters in the homeland. The 76th ORC also provides augmentation and operational capabilities as directed to Combatant, Unified, and Joint Commanders, to DoD Agencies, and to civilian authorities.

Country

79TH THEATER SUSTAINMENT COMMAND

THE 79TH THEATER SUSTAINMENT COMMAND supports the national military strategy by providing trained and ready sustainment units for worldwide deployment to meet the U.S. Army's rotational and contingency mission requirements.

The 79th TSC is the newest of the Army's Theater Sustainment Commands and one of only two TSCs in the Army Reserve. Deployable, with units dispersed across 19 states west of the Mississippi, the 79th is capable of providing logistical support to an entire theater. Regionally aligned to U.S. Army Africa, it is also responsible for supporting one of the largest and most complex areas of operation in the world.

84TH TRAINING COMMAND

THE 84TH TRAINING COMMAND TRAINS AND EVALUATES UNITS

on collective training proficiency of Mission Essential Tasks and Commander's Training Objectives in a complex and dynamic environment – providing commanders with timely feedback and assessments to sustain collective readiness.

The 84th TC oversees the **Combat Support Training Program and Mission Command Training Program**, ensuring units from across the Army Reserve are trained and ready for deployment. The CSTP is composed of Combat Support Training Exercises, which are large-scale collective training exercises designed to immerse units into tactical training environments that closely replicate what they might experience in operational deployments. The MCTP also engages headquarters and staffs in a digital environment that closely replicates how they will function in an operational environment.

Custer Division

85TH SUPPORT COMMAND

THE 85TH SUPPORT COMMAND PROVIDES ARMY RESERVE TRAINERS who possess the capabilities to partner with and train Army leaders in focused areas of leadership, training, equipping and unit manning in order to support First Army's mission to successfully deploy units to win on the battlefield.

The 85th Support Command's nine Brigade Support Elements and 45 Army Reserve battalions, dispersed across 25 states, provide observer coach/trainer support to assist First Army with mobilization certification for deploying Army Reserve and National Guard units.

The 85th Support Command was constituted as the 85th Infantry Division on Aug. 5, 1917, and activated at Camp Custer, Michigan, to deploy overseas in July 1918. The division later served in World War II and participated in the campaigns of Rome-Anno, Po Valley and North Apennines.

- Logistical support battalions provide logistical and maintenance support to First Army units who provide training and evaluations to reserve component forces
- Partnering with reserve component forces

We are Big Blue!

88TH READINESS DIVISION

THE 88TH READINESS DIVISION partners with commands in a 19-state region to enhance Soldier, family, equipment and facility readiness in support of the nation's requirements.

The 88th RD sets the conditions that enable readiness for roughly 53,000 Soldiers in 605 units at 247 sites. The division oversees 760 facilities totaling 9,534,003 square feet and manages 12 Local Training Areas in 11 states covering 7,593 acres.

The 88th operates the Fort McCoy Draw Yard, available for units to draw vehicles for training and exercises. Units from as far away as Hawaii and Guam benefit by not having to transport their vehicles to and from Fort McCoy for training. The Army Reserve benefits by

saving an estimated \$13 million each year in transportation costs.

The 88th Readiness Division also serves as the command and control headquarters for four Army bands, 12 Public Affairs units and six Military History units.

In recognition of its consistently high level of performance, the 88th Readiness Division won the 2019 Army Community of Excellence Award as the top Army Reserve command. Since 2011, the division has won the award every year it was eligible to enter the competition.

Dauntless!

99TH READINESS DIVISION

THE 99TH READINESS DIVISION'S MISSION is to integrate capabilities with Reserve Commands to provide geographic programs and services that enhance individual and unit readiness, mobilization and deployment of Army Reserve forces.

Soldiers fire rounds of the 99th Readiness Division change of command ceremony on Joint Base McGuire-Dix-Lakehurst. (Photo by Sgt. Bethany Huff)

The 99th Readiness Division maintains 274 Army Reserve installations, buildings and facilities, supporting more than 550 units with consistent, realistic training opportunities and modern equipment – enhancing Soldier readiness and providing logistical and material support.

Covering the northeastern region of the U.S., the 99th also supports Army Reserve families, employers and communities through numerous programs and partnerships as well as being available for Defense Support to Civil Authorities.

First in Training

108TH TRAINING COMMAND (INITIAL ENTRY TRAINING)

THE 108TH TRAINING COMMAND (IET) HAS BEEN INSTRUMENTAL in providing quality training to Soldiers from all Army components for more than 60 years.

The 108th TC supports two of TRADOC's five core function leads: The Center for Initial Military Training and Cadet Command — providing professionally trained and ready Drill Sergeant units, instructors, leader trainers and command expertise to conduct Initial Entry Training and Cadet Training.

The 108th TC (Initial Entry Training), the only command in the Army Reserve with Drill Sergeant positions, focuses on turning citizens into warriors. Redesignated in 2008, the unit focuses on training initial entry Soldiers, as well as ROTC and U.S. Military academy Cadets. The 108th TC provides expert force-generating, operational and strategic military training capabilities while also delivering subject matter experts globally in support of contingency, stability and partnership operations throughout a multi-agency and multinational environment.

200TH MILITARY POLICE COMMAND

THE 200TH MILITARY POLICE COMMAND, ONE OF ONLY TWO MILITARY POLICE COMMANDS IN THE ARMY, provides the full range of military police support to large-scale ground operations whenever and wherever required. As the Army Reserve's senior military police command, the 200th MPC trains and prepares four brigade headquarters, 22 battalion headquarters and 53 companies dispersed across the continental U.S.

Subordinate elements of the 200th MPC are primarily MP units, but also include some chaplain detachments. It is the largest military police organization across the DoD and is the primary provider of detention operations forces for the joint force. The 200th MPC is responsible for leading, training, commanding and deploying nearly 14,000 Soldiers and

providing mission command for more than 97 percent of the Army Reserve's MP assets. In times of crisis, the 200th MPC is designated as the theater provost marshal and commander of detention operations. Soldiers of the 200th MPC conduct route security, customs operations, detainee operations, internment and resettlement operations, criminal investigations, provide protective services to the joint force and military law enforcement.

(Photo by Pfc. Keely Key)

The 311th SC (T) and its subordinate units are stationed across 16 time zones, ranging from Alaska to Korea and from Hawaii to California, supporting cyberspace operations to ensure U.S. and allied freedom of action in cyberspace and to deny the same of our adversaries.

The unit's core mission is to maintain and defend the Pacific LandWarNet, a secure Army network used throughout the Indo-Pacific region and also support the Army Network Enterprise vision through its alignment with NETCOM's Global Network Enterprise objectives.

In Fiscal Year 2019, the 311th deployed three rotations of Reserve forces to the Republic of Korea as part of Task Force Phoenix to support network improvements; and simultaneously provided ongoing support for three iterations of U.S. Army Pacific's series of Pacific Pathways exercises in Thailand and the Philippines.

335TH SIGNAL COMMAND (THEATER)

THE 335TH SIGNAL COMMAND (THEATER) PROVIDES SIGNAL AND CYBER UNITS in direct support of Army Central Command in Southwest Asia and combatant commanders around the globe. Its mission—plan, engineer, install, operate, maintain, secure and defend the Army’s portion of the Department of Defense Information Network in support of U.S. Army, Joint and Combined Forces Commanders.

One of three theater signal commands in the Army, the 335th SC (T) has the distinction of having served in Iraq and Afghanistan longer than any other command in the Army Reserve. A professional and adaptable team, 335th SC (T) Soldiers bring the best networking, information technology and cybersecurity practices from private industry, academia and defense to the total force, making them some of the most capable and combat-ready Signal and Cyber warriors in the U.S. military.

Can Do, Anytime, Anywhere!

377TH THEATER SUSTAINMENT COMMAND

THE 377TH THEATER SUSTAINMENT COMMAND IS THE LARGEST COMMAND IN THE ARMY RESERVE with more than 35,000 Soldiers located in 35 states. Based in Belle Chasse, Louisiana, the 377th TSC has responsibility for domestic assets that support homeland defense and provides a force of highly-trained Soldiers ready to deploy worldwide.

The organization has an operational mission to support U.S. Northern Command during contingency operations. The mission focus includes disaster and emergency relief to supplement the Defense Support of Civil Authorities response to nationwide catastrophes. Additionally, the command works with its partners to provide sustainment solutions for the United States, Canada, and Mexico to respond to events ranging from natural disasters to chemical attacks.

Additionally, the 377th TSC and its major subordinate commands deliver readiness and lethality by providing theater-wide logistics and sustainment support for U.S and allied forces deployed globally.

Build to Serve

412TH THEATER ENGINEER COMMAND

THE 412TH THEATER ENGINEER COMMAND (TEC) MOBILIZES AND DEPLOYS TO ANY THEATER and provides mission command for all engineer assets within the theater of operations, also serving as the senior engineer advisor to the theater commander.

The TEC deploys an early entry deployable command post (DCP) with multiple engineering capabilities, and the DCP can be expanded and tailored to the operation as the mission requires.

Some of those capabilities include conducting assault gap crossings, emplacing obstacles to prevent the enemy from maneuvering on the battlefield, route reconnaissance, minesweeping, and route clearance operations. The 412th employs wet and dry gap bridging systems and conducts and prepares reconnaissance reports for road, route, tunnel, bridge, and ford sites, constructs base camps, internment facilities, and maintains roads and airfields.

The command deploys to provide sustained United States Army Corps of Engineers contract construction and engineering execution while also providing Department of Public Works

base facilities management, design solutions for minor facility repair and maintenance facilities, environmental assessments and remediation expertise.

807TH MEDICAL COMMAND (DEPLOYMENT SUPPORT)

THE 807TH MC(DS), THE LARGEST MEDICAL COMMAND IN THE ARMY RESERVE, is responsible for managing all of the Army Reserve's deployable field medical units from Ohio to California. It consists of 125 units across 26 states and more than 10,000 Soldiers and civilians.

The 807th MC(DS) is a two-star command, providing seamless Army Health System support to theater and combatant commands through the critical medical warfighting functions and the full-spectrum of medical operations. These capabilities enable the 807th MC(DS) to assess medical threats and ensure the overall health of the force.

Regionally aligned to support U.S. Southern Command (South and Central America), the 807th MC(DS) provides specialized, critical medical skills for missions to the U.S. European Command, U.S. Pacific Command, U.S. Africa Command, U.S. Central Command, and U.S. Northern Command. In Fiscal Year 2019, the 807th MC(DS) provided medical support for nearly 40 Overseas Deployment Training events and supported more than a dozen stateside training

exercises – to include Homeland Operations and Chemical, Biological, Radiological, Nuclear, and Explosive (CBRNE) first-responder training.

Capitalizing on joint, total force training opportunities, the 807th MC(DS) supports operations to enhance security, stability and cooperation, and stands as a ready force for conducting military and humanitarian operations at home and abroad.

U.S. ARMY RESERVE INSTALLATIONS

FORT HUNTER LIGGETT

THE U.S. ARMY GARRISON FORT HUNTER LIGGETT provides training for maneuver support and sustainment units of the Army Reserve, and offers training opportunities to all U.S. military components and allied nations.

Soldiers from the 396th Combat Support Hospital await UH-60 Black Hawks to land to simulate a patient load during a promotional photoshoot at Fort Hunter Liggett, California. (Photo by Master Sgt. Michel Sauret)

Available resources include Tactical Training Bases, Military Operations on Urban Terrain sites, a five-mile Convoy Live Fire Course, weapons qualifications ranges, a live-fire shoot house, and an urban assault course.

For units with airborne training needs, Fort Hunter Liggett hosts one

of only four C-17 cargo aircraft capable dirt assault strips in the U.S., dozens of parachute drop zones, a heliport, and restricted airspace up to 24,000 feet.

Originally, designated Hunter Liggett Military Reservation in 1941, the installation is named for Lieutenant General Hunter Liggett and in 1975, the reservation was re-designated Fort Hunter Liggett

Military Installation. Today, the command is officially designated as the U.S. Army Garrison Fort Hunter Liggett with Parks Reserve Forces Training Area located in Dublin, California, as a sub-installation.

The garrison mission is to maintain and allocate training areas, airspace, facilities and ranges in order to support reserve and active components field maneuvers, live fire exercises, testing, and Institutional Training. Additionally, the installation provides quality of life and logistical support to training units.

Fort Hunter Liggett is one of six pilot installations for Net Zero—Energy and Waste by the Assistant Secretary of the Army for Installation, Energy and Environment. Its sub-installation, Parks Reserve Forces Training Area located in Dublin, California, supports more than 250 units and more than 20,000 Soldiers in the San Francisco area.

FORT MCCOY

FORT MCCOY IS WISCONSIN'S SOLE FEDERALLY-OPERATED ARMY INSTALLATION. Uniformed and civilian members of the Fort McCoy team maintain premier training grounds and support infrastructure for large-scale exercises and other training with nearly 60,000 acres of terrain and maneuver space.

Each year, Fort McCoy provides support and facilities for the field and classroom training of nearly 150,000 military personnel from all services for numerous Army Reserve exercises, including the Combat Support Training Exercise, Red Dragon, Warrior Exercise, and Global Medic. Operation Cold Steel, held at Fort McCoy, was the largest live-fire exercise in Army Reserve history, developed to train and certify more than 400 crews over a seven-week period.

Fort McCoy is also the home of the 88th Readiness Division, which provides essential base operations support in the areas of personnel, operations, information management, logistics and facility management in their 19-state region in the northwest quadrant of the country.

FORT BUCHANAN

U.S. ARMY GARRISON FORT BUCHANAN, under the Installation Management Command-Readiness, is the only federal military installation in the Caribbean.

Soldiers of the 1st Battalion, 333rd Regiment (Multifunctional Training) gathered at Fort Buchanan, Puerto Rico, for the 1st Mission Support Command transformation integration ceremony. The 1st Mission Support Command Garita patch was placed on the sleeves of Soldiers in commemoration of the transition of the 1-333rd Battalion from the 94th Training Division-Force Sustainment to the 1st MSC.

Fort Buchanan is a team of teams who together ensure readiness by providing opportunities for tough and realistic training, cultivating relationships with our community partners off the installation, and ensuring we have a robust disaster preparedness plan that inculcates unity of effort vice unity of command.

Fort Buchanan is charged with building readiness for more than 15,000 active duty, National Guard and Reserve Component Soldiers, Sailors, Airmen, Marines and Coast Guardsmen, training, working or living on the installation. Our mission is to be a forward based training and staging platform dedicated to enhancing unit readiness for rapid deployment in support of Combatant Commanders.

Established as Camp Buchanan in 1923 and re-designated as Fort Buchanan in 1940, the installation has supported the warfighter and deploying forces for almost 100 years. Today, as an Army Reserve installation, Fort Buchanan's strategic focus is to become the central hub for all Department of Defense activities in the Caribbean, committed to excellence, and focused on improving the readiness of our supported commanders.

We Are Fort Buchanan! ¡Somos el Fuerte Buchanan!

CAMP PARKS

CAMP PARKS, HOME OF THE ARMY'S 91ST DIVISION, AND PART OF THE U.S. ARMY COMBAT SUPPORT TRAINING CENTER AT FORT HUNTER LIGGETT, is located in the eastern reaches of the San Francisco Bay Area near the City of Livermore, California in Alameda County. The Parks Reserve Forces Training Area, historically known as Camp Parks, is located in the city of Dublin, California, 28 miles southeast of Oakland.

Staff Sgt. Ethan Kruger, with the Camp Parks Noncommissioned Officer Academy, 83rd U.S. Army Reserve Readiness Training Center, 100th Training Division, makes jumping logs look easy as he maneuvers through the obstacle course at Fort Knox, Kentucky. (Photo by Maj. Addie Leonhardt)

Camp Parks serves more than 250 units with more than 20,000 Army Reserve and National Guard Soldiers in the greater San Francisco area. Assets include a rappelling tower, leadership reaction course, state-of-the-art medical skills lab, and a distance learning center equipped with 24 computers, and bed space for more than 800. The facility was

built during World War II, and was commissioned 19 January 1943 as Camp Parks. Originally, it was home to the Navy Seabees then transferred to the Air Force who establishing a basic training center during the Korean War, and renamed the facility Parks Air Force Base.

In July 1959, the installation was transferred to the United States Army and in 1973, the Army determined that Camp Parks was needed as a mobilization and training center for Reserve Components in the event of war or natural disaster.

Thousands of National Guard and Army Reserve Soldiers — and 94 Naval Reserve Seabees train for war at Camp Parks. One occupant, 1st Brigade of the 91st Division trains Army units using computer simulators.

Staff Sgt. Ethan Kruger, assigned to Camp Parks Noncommissioned Officer Academy, 83rd U.S. Army Reserve Readiness Training Center, 100th Training Division, demonstrates weapons knowledge at a best warrior competition at Fort Knox, Kentucky. (Photo by Maj. Addie Leonhardt)

U.S. ARMY RESERVE HISTORY

THE MANPOWER RESERVE (1908–1945)

CONGRESS FIRST CREATED A FEDERAL RESERVE FORCE IN 1908, the Medical Reserve Corps, to remedy mobilization and preparedness challenges experienced during the nation's wars of the 1800s. At the time, no reserve force existed under direct command and control of the federal government.

Soldiers of the 90th Infantry Division, an Army Reserve unit from Texas and Oklahoma, advance into Germany during World War II. (Photo courtesy U.S. Army Reserve)

Opposite: A World War I Army Reserve nurse guides a horse pulling a medical cart. There were 403 Army nurses serving on active duty, April 6, 1917. Of these, 42 percent were Army Reserve nurses. (Photo courtesy U.S. Army Reserve)

Led by former President Theodore Roosevelt, the “Preparedness Movement” set the stage for the National Defense Act of 1916, which created the Officer’s Reserve Corps and the Enlisted Reserve Corps, predecessors to the current Army Reserve.

THE RESERVE CORPS AND NATIONAL ARMY

Congress created the Officer’s Reserve Corps, Enlisted Reserve Corps and Reserve Officers’ Training Corps in 1916. Once war was declared, the Officer Reserve Corps grew dramatically, providing more than 89,000 officers. Within the Enlisted Reserve Corps, 15,000 Soldiers served in the Medical Department. More than 80,000 Enlisted Reserve Corps or Regular Army Reserve Soldiers served in World War I.

THE ORGANIZED RESERVE

Beginning in 1942, the Army activated 26 Organized Reserve infantry divisions and hundreds of other units. From 1943 to 1944, Organized Reserve officers constituted 52 percent of all officers

killed in action, 28 percent of those missing in action and 27 percent of those captured by the enemy. All told, approximately one quarter of all Army officers—200,000—serving in World War II were from the Organized Reserve.

“There is no component of more importance to the security establishment than the Organized Reserve Corps. The new Reserve Corps can and must become the well-trained citizen Army Reserve required to supplement immediately, in an emergency, our small Regular Army and our National Guard.”

— General of the Army Dwight D. Eisenhower, Army Chief of Staff, July 1946

THE STRATEGIC RESERVE (1946-1990)

IN ENACTING THE ARMED FORCES RESERVE ACT OF 1952, Congress declared that the Army Reserve is “necessary for a balanced force” and shall be “maintained for the purpose of providing trained units and qualified individuals to be available for active duty” to meet requirements that cannot be met by the Active Army.

The crew of a 90 mm anti-aircraft gun prepares to fire during summer training at Yakima, Washington, Training Center in June 1954. These men are members of the 405th AAA Bn. (Photo courtesy of Office of Army Reserve History)

The “Total Force Policy,” developed in the early 1970s, integrated active and reserve forces enabling the nation to maintain an active force as small as possible to meet peacetime commitments, while using the reserves for force generation in times of conflict. The policy was championed by Army Chief of Staff Gen. Creighton Abrams, shaped by his view that, “They’re not going to take us to war again without the Reserve.” As designed, integration of the active and reserve components ensured critical linkage between the employment of force and public support for military action.

The Army Reserve has evolved into an operational reserve for Total Army and Joint Force requirements. The Army Reserve can “quickly task organize into force packages...[that] can be tailored to support a full range of missions, including homeland response, theater security cooperation and overseas contingency operations.”

During the Korean War (1950-1953), more than 240,000 Army Reserve Soldiers were called to active duty, though that experience demonstrated that the

mobilization system in place at the time was “not properly organized to permit an orderly augmentation of the armed forces.” Through the Armed Forces Reserve Act of 1952, Congress transformed the Organized Reserve Corps into the U.S. Army Reserve, and divided the structure into a Ready Reserve, Standby Reserve and Retired Reserve.

Most of the Army’s smoke generator units were in the U.S. Army Reserve. U.S. Army Reserve Soldiers from the 375th Chemical Company, 472nd Chemical Battalion, create a smoke screen during summer training at Camp McCoy, Wisconsin, in 1961. (SIGNAL CORPS PHOTO, #591126)

Above left: The 780th Field Artillery Battalion, an Army Reserve unit headquartered at Roanoke, Va., was attached to X Corps, part of the U.S. Eighth Army. The 780th served in Korea from April 1951 to December 1954. (Army Reserve historical painting)

Above right: U.S. Soldiers on patrol near Hue, South Vietnam, 1971. Over 100,000 individual members of the U.S. Army Reserve served on active duty each year from 1967 through 1971, and many of these men and women did serve in Southeast Asia. (U.S. Army photo)

When creating the Army Reserve, Congress authorized 24 inactive duty training days a year, up to 17 days of active duty training and gave the president the authority to call to active duty up to 1 million personnel from the reserve components to meet requirements in excess of those provided by the “Regular components.”

Following the Korean War, and in response to force structure challenges, the Army sought to maintain the integrity of mobilized Army Reserve units by not stripping personnel out of organized units as replacements for other units. Rather, reserve units were mobilized and deployed as fully trained and

manned units. At the end of the Vietnam War, and following the reduction of Active Army end-strength from 1.5 million to 785,000, the 1973 “Total Force Policy” placed an increased reliance on reserve units for rapid deployment, and integrated active duty and reserve forces into a “total force.”

Integrating active and reserve forces enabled the nation to maintain an active force as small as possible to meet peacetime commitments, while utilizing the reserves for force generation in times of conflict. The Total Force Policy gave rise to the “Abrams Doctrine,” named for Army Chief of Staff General Creighton Abrams.

“They’re not going to take us to war again without the Reserves.”

— Gen. Creighton Abrams, Army Chief of Staff, 1972–74

Soldiers from the 319th Transportation Company, U.S. Army Reserve, in Vietnam. (Photo courtesy U.S. Army Reserve)

THE OPERATIONAL RESERVE (1990–PRESENT)

WITH THE FALL OF THE BERLIN WALL AND END OF THE COLD WAR, THE PEACETIME MILITARY WAS FACED WITH REDUCED BUDGETS AND ACTIVE FORCES. In response, Congress sought to leverage the reserve components to fill the gap, requiring the Army Reserve to man, equip and train at Active Army levels.

To improve the combat readiness of the reserve components, Congress created the United States Army Reserve Command in 1990 to provide for more centralized management.

One of the most impactful changes to the force mix was the 1993 “Offsite Agreement,” which stabilized force structure and end-strength reductions, enabling the Army to place more operational reliance on the Army Reserve. As directed by then Chief of Staff of the Army, each of the reserve components would take on distinct roles, with a majority of the Army’s technical enablers residing in the Army Reserve, available for peacetime and combat operations.

After the invasion of Kuwait by Iraq in 1990, Army Reserve forces filled the breach. Approximately 80,000 Army Reserve Soldiers were activated, and about 40 percent of the Operation Desert Storm ground forces were either from National Guard or Reserve units. Then, during the Balkans conflict from 1995 to 2000, Army Reserve Soldiers made up

70 percent of the Army’s combat support and combat service support elements.

Following the global response to the 9/11 terrorist attacks, the Army developed a force generation model that made reserve component contributions fundamental to meeting the nation’s security requirements. During this period, the Army Reserve achieved unprecedented levels of readiness, underscoring its current role as an operational force. At the height of Global War on Terror, the reserve components comprised nearly 28 percent of U.S. forces deployed to Afghanistan and Iraq.

Today, the Army Reserve’s operational role has expanded to include units prepared to mobilize and deploy on compressed timelines. As throughout history, whether as part of the operational force or providing operational and strategic depth, America’s Army Reserve is ready deploy with the mobility, survivability, connectivity and lethality needed to win on the battlefield.

Opposite: America’s Army Reserve is the Army’s global operational reserve force, with more than 200,000 Soldiers and Civilians in all 50 States, five U.S. Territories, and 20 Time Zones across the globe.

Sustaining critical operational capabilities requires consistent, adequate and predictable funding to ensure that America’s Army Reserve can meet the needs of the Army and our Combatant Commands across the range of military options. (Photo illustration)

NOTEWORTHY SOLDIERS

The U.S. Army Reserve has always been comprised of men and women with great talents and abilities. Those abilities manifest themselves through leadership, bravery and strong ambition.

Among those who have answered the call to serve, some famous names have emerged. These men and women not only proved themselves to be great Soldiers but great citizens as well. From politicians to entertainers to presidents of the United States, here are some Citizen Soldiers you may well recognize ...

Eddie Rickenbacker
WORLD WAR I

Eddie Rickenbacker is the highest-scoring American fighter ace of World War I with 26 confirmed victories, retiring with the rank of major. He earned the Medal of Honor for attacking seven enemy planes on his own, resulting in one going down. Rickenbacker served as a military consultant for the U.S. Government during World War II.

Harry S Truman
WORLD WAR I

Harry Truman served as a captain commanding Battery D, 129th Field Artillery. After the war, he entered public service and served in the Army Reserve attaining the rank of colonel. He later became the 33rd President. In 1948, President Truman signed Executive Order 9981 desegregating the armed forces.

Charles W. Whittlesey
WORLD WAR I

Charles Whittlesey was awarded the Medal of Honor for commanding the famous "Lost Battalion" of the 77th Infantry Division. Whittlesey served as one of six honorary pallbearers at the Tomb of the Unknown Soldier dedication on Nov. 11, 1921, in Arlington National Cemetery.

William J. Donovan
WORLD WAR I and II

William J. Donovan was awarded the Medal of Honor in World War I and became the first commander of the 301st Cavalry Regiment, 61st Cavalry Division, Organized Reserve in the interwar years. He formed the Office of Strategic Services (OSS), which later became the Central Intelligence Agency (CIA), during World War II.

Ronald Reagan
PRE-WORLD WAR II

Ronald Reagan enlisted in the Army Enlisted Reserve on Apr. 29, 1937, as a Private assigned to Troop B, 322nd Cavalry at Des Moines, Iowa. He was appointed second lieutenant in the Officers' Reserve Corps of the Cavalry on May 25, 1937. In April 1942, Reagan was ordered to active duty and transferred to the Army Air Forces. By 1943, he was promoted to captain and served stateside in the 1st Motion Picture Unit, making training films for the war effort. The unit produced over 400 training films during the war. He became the 40th President.

Mel Brooks
WORLD WAR II

Mel Brooks served as a corporal and combat engineer in the 78th Infantry Division with the 1104th Engineer Combat Battalion. The unit built bridges, cleared blocked roads, and deactivated landmines ahead of advancing Allied forces. He is one of few entertainers that have won an Emmy, an Oscar, a Grammy, and a Tony award. In 2013, he received the 41st American Film Institute Life Achievement.

Be bold. When you embark for strange places, don't leave any of yourself safely on shore. Have the nerve to go into unexplored territory.

— Alan Alda

One doesn't become a Soldier in a week — it takes training, study and discipline. There is no question that the finest Army in the world is found in the United States.

— Daniel Inouye

Malcolm Forbes
WORLD WAR II

Malcolm Forbes was assigned to a heavy machine gun section of the 334th Infantry Regiment, 84th Infantry Division. He was wounded in the Battle of Aachen in Germany and spent ten months recovering before being discharged in August 1945 and receiving the Bronze Star and Purple Heart. He later became a famous publisher and entrepreneur.

Daniel Inouye
WORLD WAR II

Daniel Inouye served as a captain in the 442nd Regimental Combat Team. He was awarded the Distinguished Service Cross, upgraded in 2000 to the Medal of Honor, for his actions fighting Germans in Italy. After the war, Inouye entered public service and became a United States Senator representing Hawaii.

Henry Kissinger
WORLD WAR II

Henry Kissinger served in the 84th Infantry Division. As a Jewish immigrant from Germany, Kissinger was assigned to the military intelligence section of the 84th and volunteered for hazardous duty during the Battle of the Bulge. Due to his fluency in German, he was reassigned to the Counter Intelligence Corps as a sergeant and was involved in establishing civilian administration and tracking down Nazis. He later became the 56th Secretary of State and Nobel Peace Prize recipient.

Leonard Nimoy
COLD WAR ERA

Leonard Nimoy enlisted in the Army Reserve in 1953 and served a total of 18 months. He spent most of his time at Ft. McPherson, Georgia, and was discharged in 1955 having earned the rank of sergeant. He became famous for his role in the television series, "Star Trek," portraying half-Vulcan, half-human science officer of the U.S.S. Enterprise, Spock. He was also prominent in stage and major motion pictures as well as a respected photographer.

Alan Alda
KOREA

Alan Alda enrolled in the Reserve Officer Training Corps while in college and went to Fort Benning, Georgia, for a year after graduation. Alda served as an Army Reserve artillery officer before going on to become an actor, well known for his portrayal of Hawkeye, the witty field surgeon in the hit television series "M.A.S.H."

John Fogerty
VIETNAM ERA

John Fogerty served briefly in the Army Reserve. During his one year term from 1966 to 1967, Fogerty served at Fort Bragg, Fort Knox, and Fort Lee. He later became the famous front man for Creedence Clearwater Revival (CCR).

... they'll bury me here before I quit.

— Maj. Lisa Jaster

...on attending the final "swamp phase" at Ranger School.

Jaster is the third female to earn the Army Ranger Tab.

Jeremy Church IRAQ WAR

Pfc. Jeremy Church, 724th Transportation Company, was the Army Reserve's first Silver Star recipient in the Iraq War and its first since the Vietnam War. When his convoy was ambushed by more than 150 al-Sadr militia in April 2004, Church navigated one-handed through the kill zone while firing his M-16 out the window. Once safely away and security was established, Church and fellow Soldiers returned to load the wounded. With no room left, Church volunteered to stay behind firing at and killing insurgents until the recovery team returned. He loaded up several more wounded before sweeping the area for sensitive items and evacuating.

Jason Fetty AFGHANISTAN

Staff Sgt. Jason Fetty deployed to Afghanistan with the 364th Civil Affairs Brigade and became the first Army Reserve Soldier to earn the Silver Star in Afghanistan. While questioning an unfamiliar individual at the opening of the Khost medical facility, February 2007, Fetty became convinced he was dealing with a suicide bomber. He kept himself between the insurgent and attending officials and physicians while nearby personnel were evacuated. The standoff escalated into a physical altercation until, recognizing the bomber's intent, Fetty dove to the ground as the vest detonated. Due to his actions, countless lives were spared and vital medical resources were saved.

David Hutchinson AFGHANISTAN

Spc. David Hutchinson, 420th Engineer Brigade, was ambushed by enemy insurgents firing rocket propelled grenades and machine guns from a hillside in Afghanistan, May 2008. He quickly returned heavy fire, destroying the machine gun position, killing at least five enemy insurgents. Despite collapsing from being wounded in the right leg by shrapnel from a grenade, he calmly treated his severely injured first sergeant as his convoy moved out of the kill zone. When medical help arrived, Hutchinson refused treatment until his wounded first sergeant had been carried away first. For his actions, he was awarded the Silver Star, the nation's third highest award for combat valor.

Gregory Ruske AFGHANISTAN

Sgt. Gregory Ruske, a third generation Army Soldier, assigned to 5025th Garrison Support Unit, serving with Task Force Gladiator, Combined Joint Task Force 101, was on patrol in Afghanistan, April 2008, when Taliban insurgents attacked his unit. In the ensuing six-hour battle, Ruske—shot in the hip and still under intense enemy fire—risked his life to rescue a wounded Afghan police officer. For his actions that day, Ruske, a Colorado Springs, Colorado native, was awarded the Silver Star, the nation's third-highest military award for valor.

James Witkowski IRAQ WAR

Sgt. James Witkowski, 729th Transportation Company, and 100 fellow Soldiers were transporting supplies through a village in Iraq, October 2005. Insurgents attacked the convoy with small arms, rocket-propelled grenades, mortars and armor-piercing rounds. Through the mile-long ambush, he returned .50-caliber machine gun fire. When a grenade landed inside his turret, Witkowski made the split-second decision to shield his comrades, taking the full brunt of the detonation with his body and saving the lives of three Soldiers. His actions enabled the convoy to clear away with only minor injuries. Witkowski was posthumously awarded the Silver Star, the nation's third-highest award for courage under fire.

Deshauna Barber

Capt. Deshauna Barber, commander of the 988th Quartermaster Detachment, Rockville, Maryland, crowned on June 5, 2016, was the first woman actively serving in the United States military to win the 2016 Miss USA title. Barber took the stage as an ambassador for Soldiers and veterans and dedicated her platform to shining a light on the very serious issues of post-traumatic stress disorder and gender equality in the services.

Lisa Jaster

Maj. Lisa Jaster, an individual mobilization augmentee with the U.S. Army Corps of Engineers in Huntsville, Alabama, became the third female to earn the Army Ranger Tab, Oct. 16, 2015. Her experience at 37 years of age in the first pilot program contributed to assessing the impact of integrating women into combat roles across services, and her success was instrumental in the recent Department of Defense decision to allow female service members to serve in any job for which they meet gender-neutral performance standards.

Sam Kendricks

On July 27, 2019, 1st Lt. Sam Kendricks set an American record at the U.S. track and field championships. With a clearance of 19 feet, 10 1/2 inches (6.06 meters), it is currently the highest vault in the world. Kendricks, an Oxford, Mississippi native, is the 2017 World Champion pole vaulter. The Olympic athlete won the Bronze Medal during the 2016 Summer Olympics in Rio de Janeiro and gained attention across the globe for stopping mid-stride in the preliminary round and dropping his pole to render honors during the playing of the National anthem.

DEFENSE SUPPORT OF CIVIL AUTHORITIES + IMMEDIATE RESPONSE AUTHORITY

DEFENSE SUPPORT OF CIVIL AUTHORITIES

AMERICA'S ARMY RESERVE IS STRUCTURED WITH DUAL-PURPOSE CAPABILITIES and, as such, is a Federal Response Partner, maintaining a ready posture for Defense Support to Civil Authorities operations as a resource and capability provider. The National Defense Authorization Act of 2012 expanded the Army Reserve capability to conduct DSCA response with increased mobilization authorities to rapidly activate units.

Army Reserve Soldiers practice lifesaving skills in Manhattan, New York, July, 10, 2018. These Soldiers are part of a national response element that works with civil authorities to provide manpower, vehicles, and equipment to perform medical services as well as chemical, biological, and radiological clean up—skills that would be in high demand in the event of a disaster or attack. (Photo by Staff Sgt. Felix R. Fimbres)

America's Army Reserve includes substantial capabilities vital in disaster response and stands ready to support lead agencies for domestic emergencies and disaster relief efforts. Section 12304a of the 2012 National Defense Authorization Act provides authority for the Service Reserve Components to assist citizens and communities in the United States during domestic emergencies to save lives, prevent human suffering and mitigate great property damage.

America's Army Reserve provides federal support to DSCA during emergencies with capabilities such as aviation lift, search and rescue or extraction, quartermaster (food, shelter, potable water, heated tents, etc.), civil affairs and public information as well as a significant portion of full-spectrum engineer capability.

For example, Army Reserve medical evacuation helicopters can rapidly transport patients to critical-care facilities, and our fixed-wing aircraft can provide

rapid transportation within a disaster response area. Army Reserve heavy-lift helicopters can rapidly deliver critical supplies, equipment and construction material into affected areas. The Army Reserve is fully integrated into the standing Department of Defense task force postured for response to Chemical, Biological, Radiological and Nuclear (CBRN) events.

America's Army Reserve provides all of the Army's Emergency Preparedness Liaison Officers and half of those in the Department of Defense. These EPLOs serve as conduits, maintaining communications among the Department of Defense, federal, state and local governments, and nongovernmental organizations to coordinate assistance among all parties during emergency response events. In fiscal year 2016, 53 EPLOs were

Pfc. Travis Rollings (left) and Spc. Preston Warren, decontamination specialists assigned to the 413th Chemical Company, use a chemical detector to test the radiation levels of a mannequin during decontamination operations at Homestead Air Reserve Base, Homestead, Florida, Jan. 19, 2019. The Army Reserve conducts Chemical, Biological, Radiological and Nuclear (CBRN) response training in support of civil authorities in order to save lives, minimize human suffering, maintain public confidence and mitigate the effects of CBRN incidents. (Photo by Sgt. 1st Class Brent C. Powell)

NEARLY 200,000 ARMY RESERVE SOLDIERS ARE TRAINED, EQUIPPED AND ORGANIZED TO PERFORM A FULL RANGE OF OPERATIONS—including disaster response with facilities located in over 1,200 communities across the nation. Key Army Reserve capabilities available for disaster response include:

- **Aviation:** Medical Evacuation, Medium and Heavy Lift Helicopters, Search and Rescue
- **Engineers:** Search and Rescue, Debris Removal, Horizontal and Vertical Construction, Portable Bridges
- **Medical:** Ground Ambulance, Combat Support Hospitals, Specialized Medical Teams, Veterinary Services
- **Communications:** Communications capability including satellite
- **Logistics:** Water, Petroleum, Generators, General Logistics
- **Transportation:** Light, Medium, and Heavy Trucks, Watercraft
- **CBRN:** Army Reserve Chemical, Biological, Radiological, and Nuclear incident response capabilities are trained and ready

Sgt. Jeffrey Evans, with the 468th Engineer Detachment, listens for trapped victims during a collapsed subway extrication at the Army Reserve's Guardian Response 18 exercise, April 11, 2018. The training involved a range of life-saving capabilities such as medical response, decontamination, technical rescue, patient evacuation, communications and logistics support to move people, equipment and supplies by land and air. (Photo by Master Sgt. Anthony L. Taylor)

mobilized for a total of 336 man-days in response to homeland requirements, including the Republican and Democratic National Conventions.

The Army Reserve will conduct DSCA response in two ways — immediate and deliberate. These

responses differ in the authorities under which they are conducted and the source of the support request. Responses can be conducted independently or as part of a larger response effort.

Deliberate response is conducted by Army Reserve units and Soldiers under the mobilization authority specified in Title 10 U.S. Code Section 12304 and Title 10 U.S. Code Section 12304a.

Title 10 USC Section 12304 authorizes federal reserve units, including the Army Reserve, to respond to certain emergencies and humanitarian assistance in other nations. This includes the authority to order up to 200,000 members of the components to active duty for a continuous period of up to 365 days to provide assistance to either the federal government or an individual state in time of a serious man-made disaster, accident or natural catastrophe.

Title 10 USC Section 12304a (enacted with the passage of the 2012 National Defense Authorization Act) authorizes federal component units to provide disaster assistance to address a major natural disaster or emergency in the United States. This includes the authority to order any unit, and any member not assigned to a unit organized to serve as a unit, of the component to active duty for a continuous period of not more than 120 days to respond to a governor's request.

IMMEDIATE RESPONSE AUTHORITY

IMMEDIATE RESPONSE IS CONDUCTED BY ARMY RESERVE UNITS AND SOLDIERS UNDER THE IMMEDIATE RESPONSE AUTHORITY (IRA) outlined in DoD Directive 3025.18, which authorizes local commanders to take action to save lives, prevent human suffering or mitigate great property damage in an urgent situation when there is insufficient time to get approval from higher headquarters.

Above: U.S. Army Reserve Sgt. Eric Elder, a power distribution specialist assigned to Delta Company, 249th Engineering Battalion, U.S. Army Corps of Engineers, fixes downed power lines caused by Hurricane Maria to help restore power in the Rio Grande, Puerto Rico area, October 25, 2017. (Photo by Spc. Anthony Martinez)

As listed in DoD Directive 3025.18, a request for assistance from a civil authority (tribal authority, mayor, chief of police, fire chief, sheriff, chief of emergency management, etc.) is required to initiate the Immediate Response Authority. Following the request, Army Reserve units within the affected area may respond immediately to imminently serious disasters or attacks as required by civil authorities and within limits established by law.

IMMEDIATE RESPONSE AUTHORITY SUPPORT INCLUDES:

- Distribution of medicine, food, consumable supplies and services
- Removal of debris and road clearance for immediate restoration of emergency and essential services
- Emergency medical care, search and rescue
- Transportation of supplies and persons
- Restoration of essential services
- Construction of temporary bridges and facilities for shelters, schools and essential public services
- Demolition of unsafe structures and posting hazard warnings
- Dissemination of public information on health and safety measures
- Technical and advisory assistance to state/local officials

LEGISLATIVE AFFAIRS

CONNECTING ELECTED OFFICIALS TO ARMY RESERVE SOLDIERS IN COMMUNITIES ACROSS AMERICA

The Army Reserve Legislative Affairs Division engages Congressional Members and staff, state governors, elected officials, and Military and Veteran Service Organizations in order to inform them about Army Reserve equities, missions, priorities, and initiatives. Additionally, the LAD team tells the Army Reserve story through facilitating engagements and events with Army Reserve senior leaders, Soldiers, civilian employees, and family members in an effort to build enduring relationships that foster trust and confidence in the Army Reserve.

In accordance with congressional statutory requirements, the Army Reserve's Legislative Affairs Division is directly responsible to the Chief of Army Reserve (CAR) for ensuring the integration of the CAR's strategic priorities.

Their role is to coordinate and disseminate timely, critical and accurate information to Members of Congress, congressional committees and professional staff members. They also serve as a conduit between Members of Congress, constituents, government and non-government entities, providing accurate, clear and concise formulated written and oral responses to professional and congressional inquiries.

Support at the local, state and federal government level is provided by 12 legislative affairs representatives in its corporate office and four full-time legislative liaisons located at each of its four Regional Support Commands

AMBASSADORS

ARMY RESERVE AMBASSADOR PROGRAM: "STRENGTH THROUGH STRATEGIC PARTNERSHIPS"

The Army Reserve Ambassador Program is one of the Army Reserve's key outreach programs. Comprised of 100 active and emeritus ambassadors from across the nation, the ARA program provides a powerful means of message delivery to the American people.

- **Educate and inform** the public, government, business, military and veteran service organizations about the value and positive return on investment of the Army Reserve.
- **Build a cadre** of supporters and advocates that can be activated when necessary.

ARAs provide a relevant and invaluable link between communities and the Army Reserve, and are relied upon to:

- **Seek support** from elected officials and engage stakeholders at all levels of local and state government.
- **Forge and sustain** enduring relationships between Army Reserve units and local communities to improve the understanding of and appreciation for the Army Reserve.
- **Open doors** in business, industry and institutions of higher learning.

ARAs have the advantage of strategic timing, long term relationship building, creating and seizing opportunities, and continual follow-up with persons of influence to accomplish this.

Their relationships and contacts they have now and the ones they develop in the future as Army Reserve Ambassadors will ensure that the Army Reserve voice is heard by the American people.

The Army Reserve Ambassador Program is just one of the ways the Army's Federal Reserve Force is enhancing relationships through outreach efforts – communicating the great value of America's Army Reserve.
