## NORTH CAROLINA RESOURCE GUIDE

The best way to protect your family from the effects of a disaster is to have a disaster plan. If you are a pet owner, that plan must include your pets. Being prepared can save their lives.

If you evacuate your home, **DO NOT LEAVE YOUR PETS BEHIND!** Pets most likely cannot survive on their own; and if by some remote chance they do, you may not be able to find them when you return.

## FLOOD SAFETY TIPS

### Turn Around Don't Drown®

Most flood-related deaths and injuries could be avoided if people followed this simple advice: Turn Around Don't Drown®. More than 50% of flood related deaths are due to someone driving or walking into floodwaters.

- ✓ 6 inches of fast-moving flood water can knock an adult off his or her feet and sweep them away.
- ✓ 12 inches of moving water can carry off a small car.
- ✓ 18 to 24 inches of water can carry away larger vehicles including trucks, vans and SUVs.

If you come to an area that is covered with water, you may not know the depth of the water or the condition of the road or ground underneath. This is especially true at night, when your vision is more limited. Play it safe. Whether driving or walking any time you come to a flooded area, Turn Around Don't Drown®.
