TENNESSEE RESOURCE GUIDE

SAFETY TIPS

ARE YOU PREPARED?

<https://www.ready.gov/be-informed>

01 KNOW YOUR RISK

Floods can be devastating. You and your family may be at risk of a flood even if you have never seen floodwaters near your home.

People who have taken action to get prepared for a flood before it happens are more likely to keep themselves, their families, their pets and their properties safe during a flood.

A flood can happen:

- When a river bursts its banks after heavy rain.
- When lakes overflow after heavy rain.
- During and after a cyclone when low lying coastal areas flood due to storm surge from the ocean and heavy rain. Most cyclone related deaths happen because of flooding and storm surge.

It doesn't have to be raining in your area for a flood to happen.

In a flood, you and your family could be stranded. Some remote areas can be isolated for months by floods. Never try to drive or walk through a flood.

2

02 GET PREPARED

8 things to do if a flood is likely

- 1 Monitor **local radio, local TV and the Emergency WA or Bureau of Meteorology websites for flood and storm surge advice.**
- 2 If you're relocating to a safer place or welfare centre, **do it before the flood comes.**
- 3 Turn off your **gas, electricity and water.**
- 4 Put **fuel in your vehicle.**
- 5 Move your furniture, clothing and valuables to the **highest point possible.**
- 6 Secure **loose objects and relocate vehicles, outdoor equipment, waste containers, chemicals and poisons.**
- 7 Get your **pets and animals to safety.**
- 8 Check on your neighbours to **make sure they're ready.**

3

TENNESSEE RESOURCE GUIDE

At the welfare centre

If you plan to shelter at your nearest welfare centre, **you need to go there before the flood water becomes dangerous.**

At the welfare centre you will be offered emergency accommodation, registration of your whereabouts and support services. **Pets (except guide dogs) will not be allowed, so you'll need to make alternative arrangements for their shelter.**

The centre will try to accommodate your cultural needs but this may not always be possible.

If you have specific needs like medication, you need to bring them with you.

Pets and animals

If you have pets and animals, you need to plan what you'll do with them during a flood. You won't be able to take them to a welfare centre.

You need to:

- Decide where your pets and animals will shelter during the flood.
- Find out if your pets' tags and registrations are up to date so they can be identified.
- Decide when you'll relocate your pets and animals.
- Pack extra food, water and bedding for them.

4

Emergency kit

You and your family need an emergency kit to survive during a flood.

Your emergency kit needs to include:

- A waterproof bag containing important documents like passports, ID and insurance documents.
- Portable, battery operated AM/FM radio. 
- Waterproof torch. 
- New, spare batteries. 
- First aid kit with manual. 
- Medications, toiletries and sanitary supplies.
- Special requirements for infants, elderly, injured and disabled people, and pets. 
- Mobile phone and charger (or phone card). 
- Cash and bank cards. 
- Emergency contact numbers.
- Spare house and car keys. 
- Combination pocket knife.
- Drinking water – at least 12 litres per person. 
- Canned food – enough for 4 days. 
- A can opener, cooking gear and eating utensils.
- Portable gas stove or BBQ. 
- Water container for storing washing and cooking water.

If you decide to relocate you need to add in:

- Sleeping bags, blankets and towels.
- Waterproof ponchos.
- Spare clothing.
- Tent or tarpaulin.
- Pen and paper.
- Books, playing cards or games.

5

TENNESSEE RESOURCE GUIDE

After the flood

Here are the most important things to do after the flood:

- Listen to the radio, monitor the Emergency WA website and follow advice from authorities.
- Only return home when authorities tell you it's safe. If you're returning to your home, follow the routes recommended by authorities.
- If you need to go outside, be careful because power lines could be down and there may be fallen trees, broken water and sewage lines, loose roof sheeting and other material.
- Check the whereabouts of pets and animals. Be aware that snakes and other animals might have entered your home during a flood.
- If your property has sustained serious damage and you need help, call the SES on 132 500 for assistance. For life threatening emergencies, call 000.
- When you're clearing up around your home, stack loose material clear of water meters, valves and telephone lines.
- Throw away food and medications that might be contaminated with flood water.
- Boil your drinking water until supplies have been declared safe.
- Use a torch when entering a building. NEVER use matches, cigarette lighters or naked flames, as there may be a gas leak.
- Take photographs for insurance purposes.
- Keep electricity and appliances off until checked by an electrician. Have gas appliances inspected before use.
- Check in with your neighbours to make sure they're safe.

You might find after a cyclone or flood you need emergency accommodation, welfare support services, money, food or water. Emergency assistance is available through the Western Australian Natural Disaster Relief and Recovery Arrangements (WANDRRA). WANDRRA is for families or individuals to help with the personal hardship or distress after a flood.
