MEMORANDUM FOR RECORD

SUBJECT: Request to Complete DA Form 7809

1. First let me start by thanking you for caring for our Soldiers and Honored Veterans. We at ARMMC are charged with Medical Readiness for the Army Reserve and the need to protect our Soldiers.

2. In this Process, we need the same documentation found in Best Practices. That is, instructions to the patient to improve or maintain their health status. We can't know your patient or condition as well as you do, so we need your assistance in watching over our Soldiers. That is why the DA Form 7809 was developed. Basic needs are accurate diagnosis, medications and check off boxes for your expertise regarding restrictions/limitations that would prevent aggravation or worsening of the Soldier's condition. Similar to dietary restrictions for diabetic or safety concerns for Soldiers with behavioral health conditions.

3. A common misconception is that DA Form 7809's are some sort of disability form, they are not. Profiles are to assure the Soldier, units and mission safety and success. These forms can be completed by yourself or treating designee, and they should take less than 15 minutes. This is a small sacrifice compared to our Soldier's time in harm's way in foreign countries.

4. You are the expert with the eyes on the Soldier, your patient, and years of experience to draw from. We trust you and thank you for our Soldier and the United States Army Reserve.

5. Should you have any questions or concerns please feel free to contact our providers or the undersigned at phone 910.771.1521 or email gregorio.e.lecea.ctr@army.mil.

SUMMARY OF CARE BY NON-MILITARY MEDICAL PROVIDER

For use of this form, see PAM 40-502; the proponent agency is OTSG.

PURPOSE: The Summary of Care by Non-Military Medical Provider form provides the Army Healthcare team with essential current and relevant medical information for Soldiers seen by civilian network partners, to ensure that any functional limitation(s) is/are documented in a physical profile (DA Form 3349) when warranted. Appropriate and consistent Soldier profiles promote transparency and contribute to overall readiness of the Army. This form is applicable for Soldiers in the United States Army National Guard (ARNG), United States Army Reserves (USAR), and those on Active Duty receiving care covered by the Military Health System but at non-Military Treatment Facilities.

The following steps need to be taken to satisfy the requirement of completing the Summary of Care by Non-Military Medical Provider Form:

1. The Soldier will communicate with his/her Chain of Command within 7 business days any medical concerns being treated by a non-military healthcare provider that could negatively impact their physical capacity, deployability, or ability to perform satisfactorily. The Unit CDR or designee will provide a blank Summary of Care by Non-Military Provider Form to the Soldier, who will ensure completion by each civilian provider who performs any medical examination, evaluation, treatment, or consultation.
2. The civilian provider will complete the form based on the healthcare service(s) rendered.
3. The completed Summary of Care by Non-Military Medical Provider form and any additional available substantiating and supporting medical documents must be delivered by the Soldier to his/her Primary Care Manager (PCM) and the Regional Care Coordinator (RCC) within 7 business days of the civilian care encounter. Soldiers must also provide the form to his/her unit chain of command.
4. After review by the Soldier's PCM or RCC, appropriate processing will be made to ensure the form becomes part of the Soldier's Service Treatment Record (STR).

NOTE TO MEDICAL PROVIDER: ANY CONDITION(S) RESULTING IN FUNCTIONAL LIMITATIONS MAY LEAD TO THE ISSUANCE OF A TEMPORARY OR PERMANENT PROFILE AND MAY DIRECTLY IMPACT THE SOLDIER'S MEDICAL READINESS CLASSIFICATION AND ABILITY TO DEPLOY.

PRIVACY ACT STATEMENT

AUTHORITY: 5 USC 552e(3)(A); AR 40-501 Standards of Medical Fitness.

PRINCIPAL PURPOSE(S): This form is used to assess a Soldier's physical and functional capacity and limitations on both a temporary and permanent basis. Following this assessment, this form will be provided to the Soldier's physician and unit chain of command for the potential development of a temporary or permanent profile.

ROUTINE USE(S): In addition to those disclosures generally permitted under 5 U.S. 552a(b) of the Privacy Act of 1974, as amended, the DoD "Blanket Routine uses" under 5 U.S.C. 552a(b)(3) apply to this collection (http://dpclo.defense.gov/privacy). Medical readiness information collected from you may be shared with other Federal and State agencies and civilian health care providers, as necessary, in order to provide necessary medical care and treatment and to guide possible referrals. For those providing information in order to manage a MODS application user account, user information will be stored separately and is only used to support a user's continued access to MODS applications. Information in your records may be used for other lawful reasons which may include teaching, compiling statistical data, and evaluating the care rendered. Use and disclosure of your records outside of DoD may also occur in accordance with 5 U.S.C. 552a(b) of the Privacy Act of 1974, as amended, which incorporates the DoD Blanket Routine Uses published at: **http://dpcld.defense.gov/Privacy/SORNsIndex/Blanket-Routine-Uses/**

Any protected health information (PHI) in your records may be used and disclosed generally as permitted by the HIPAA Privacy Rule (45 CFR Parts 160 and 164), as implemented within DoD by DoD 6025.18-R. Permitted uses and disclosures of PHI include, but are not limited to, treatment, payment, and healthcare operations.

WHETHER DISCLOSURE IS MANDATORY OR VOLUNTARY AND EFFECT ON INDIVIDUAL OF NOT PROVIDING INFORMATION:
Failure to provide information or sign may delay development of a Soldier's profile.
