MEMORANDUM FOR RECORD

SUBJECT: Importance of DA Form 7809 in Safeguarding Soldier Well-Being

1. The Army Reserve Medical Management Center (ARMMC) extends its gratitude for the dedication and care provided to Soldiers. The ARMMC is responsible for ensuring the medical readiness of the Army Reserve while safeguarding the well-being of its Soldiers. The role of treating professionals is critical to this mission, and their expertise and commitment are deeply appreciated.

2. As part of this process, the ARMMC requires comprehensive documentation consistent with established best practices. The DA Form 7809 was created to address these needs by providing clear and actionable instructions for the patient to improve or maintain their health status. The form includes essential elements such as accurate diagnoses, prescribed medications, and professional input on restrictions or limitations that could prevent the Soldier's condition from worsening or being aggravated. Examples include dietary restrictions for individuals with diabetes or safety considerations for Soldiers with behavioral health conditions. Since the ARMMC does not have firsthand knowledge of the patient or their condition, the expertise of the treating professional is essential in monitoring and safeguarding Soldiers.

3. It is important to clarify that the DA Form 7809 is not a disability form. Rather, it is a tool designed to ensure the safety and success of Soldiers, units, and missions. These forms can be completed by the treating professional or a designated representative and typically require less than 15 minutes to complete. This minimal time investment is invaluable compared to the sacrifices made by Soldiers serving in harm's way.

4. The ARMMC recognizes the expertise and firsthand knowledge of treating professionals in providing care for Soldiers. Their judgment and dedication are invaluable to the United States Army Reserve. Gratitude is extended for the continued commitment to the health and well-being of Soldiers.

5. Should you have any questions or concerns please feel free to contact our PAD Team at phone: 910.771.5175 or email: usarmy.usarc.usarc-hq.mbx.armmc@army.mil.

For use of this form, see PAM 40-502; the proponent agency is OTSG.

PURPOSE: The Summary of Care by Non-Military Medical Provider form provides the Army Healthcare team with essential current and relevant medical information for Soldiers seen by civilian network partners, to ensure that any functional limitation(s) is/are documented in a physical profile (DA Form 3349) when warranted. Appropriate and consistent Soldier profiles promote transparency and contribute to overall readiness of the Army. 2. The civilian provider will complete the form based on the healthcare service(s) rendered.
3. The completed Summary of Care by Non-Military Medical Provider form and any additional available substantiating and supporting medical documents must be delivered by the Soldier to his/her Primary Care Manager (PCM) and the Regional Care Coordinator (RCC) within 7 business days of the civilian care encounter. Soldiers must also provide the form to his/her unit chain of command.
