

VOLUNTEER AND HELP MAINTAIN THE GARDEN

PLANTING FOR POLLINATORS

29 SEPTEMBER | 1400
OFFICE OF THE CHIEF ARMY RESERVE
TRUMAN HALL BLDG 1908

In recognition of National Public Lands Day, help us weed, add plants, and mulch the garden beds so they are prepared for pollinators next spring! Many hands make light work - so bring a change of clothes, gardening gloves, and tools.

The OCAR Pollinator Garden was installed in 2017 by Sustainment and Resiliency Division personnel. Funded through a grant from the National Environmental Education Foundation (NEEF), the project provides habitat for pollinators such as bees and butterflies.

This garden revitalization event will be funded by a 2023 NEEF grant. Family members are encouraged to attend to help garden, volunteer for future maintenance opportunities, learn more about plants and pollinators, and take home *complimentary Milkweed seed bombs and plants for your home garden* (while supplies last).

Volunteer for future garden opportunities
