MEMORANDUM FOR SEE DISTRIBUTION

SUBJECT: Characterization of Human Immunodeficiency Virus (HIV) Positive Soldier Deployable Status for the Purpose of Calculating Non-Deployable Time

1. Reference Army Directive 2018-22, 8 November 2018, Subject: Retention Policy for Non-Deployable Soldiers.
2. Pursuant to reference 1, when calculating periods of non-deployability for HIV positive Soldiers, they will be categorized as "deployable with limitations" unless they are found to be non-deployable due to another underlying legal, administrative or medical reason.
3. The date a Soldier's MEDPROS record is updated with a V code for deployment restrictions (solely to reflect a positive test for HIV) will not be used as an initial date of non-deployability for the purposes of counting non-deployable time. Non-deployable time will still be counted if Soldiers have another underlying legal, administrative or medical reason that makes them non-deployable.
4. This policy clarification and all other administrative guidance for HIV positive Soldiers remains in effect until the update to Army Regulation 600-110, Identification, Surveillance, and Administration of Personnel Infected with Human Immunodeficiency Virus is published.
5. The Secretariat point of contact for this policy is COL Scott Frazier, Assistant Deputy, Medical and Health Affairs, (703) 695-4402 or scott.t.frazier.mil@mail.mil.

MARSHALL M. WILLIAMS
Acting
